Appropriations Committee Asks Slash for 4 Agencies

More Than Billion Would Be Denied AEC, Selective Service, VA and TVA

Washington, June 11 (AP)—The House Appropriations Committee today recommended a slash of $1,171,389,000 from new funds requested by former President Truman for the Atomic Energy Commission, the Selective Service System, the Veterans Administration and the Tennessee Valley Authority.

It sent to the House floor for debate next week a bill to appropriate $5,284,369,664 for these four agencies for the fiscal year starting July 1.

This is 18 per cent less than Truman requested in his January budget and about 6 per cent below the revised budget of President Eisenhower.

Heaviest reduction was the $535,008,000 chopped from the Truman request for the Atomic Energy Commission. All but about 38 million was trimmed from the Truman budget by the Eisenhower administration before the committee acted.

The committee recommended six million dollars more than Truman had requested and exceeded the Eisenhower estimates by 31 million in its allotment for maintenance and operation of veterans' hospitals. The big cuts in the Veterans' Administration budget were in funds for readjustment benefits and for pensions and compensations.

Split Is Given

Here's how the commission said the new money should be split up:

Atomic Energy Commission: $1,057,781,000; Truman asked $1,592,789,000; Eisenhower $1,096,000,000 the AEC was given $4,124,621,500 this year.

Selective Service: $29,882,400; Truman requested $34,400,000, Eisenhower about 30 million. Congress gave the agency $36,772,000 this year.

Veterans administration: $4,008,335,264; Truman asked $4,574,214,664; Eisenhower $4,295,000,000. This year the VA was given $4,144,703,960.

Tennessee Valley Authority: $188,371,000; Truman requested $254,355,000, Eisenhower $190,822,000 TVA was given $336,027,000 this year.

Joint Group to Run Port of New York

Legislatures of 2 States to Be Asked to Okay Separate Agency

New York, June 11 (AP) — The governors of New York and New Jersey say they are setting up a joint commission to run the racket-ridden port of New York. It will take months to put in effect.

Each state legislature will be asked to approve a separate port control agency. These will work together until congress approves a joint commission, probably under the leadership of one man.

$700,000 Annually

Gov. Thomas E. Dewey of New York estimated yesterday the joint commission will cost at least $700,000 a year, to be assessed against the various industries which use the port. Dewey added:

"Obviously, prompt and drastic legislation is necessary to remove crime from the unions which exist there."

The 350 miles of developed waterfront in New York and New Jersey are the domain mainly of the AFL International Longshoremen's Association which is facing possible AFL suspension unless it rids itself of thugs and racketeers.

The recommendation for state control of dock hiring and licensing came from the New York State Crime Commission. It held hearings into waterfront crime late last year and early this year.

Dewey Hearings End

Two days of public hearings personally conducted by Gov. Dewey ended here yesterday. They concerned public reaction to the SCC recommendations. Dewey remarked that the recommendations "stood up magnificently under criticism."

Dewey said the New Jersey Law Enforcement Council and the New York State Crime Commission are already at work drafting proposed laws for the Legislatures of two states. It is hoped the drafts will be ready next week.

Dewey expects to call a special session of his Legislature on June 22 or June 29. Gov. Alfred E. Driscoll said of New Jersey's plans:

"We hope the task of completing drafts of legislation will be ready by the end of next week for study and scrutiny by the public and be submitted June 22 when our Legislature returns from recess."

Bullitt Visits Rhee

Seoul, June 11 (AP)—William Bullitt, former U. S. ambassador to Russia, visited South Korean President Syngman Rhee and U. S. Ambassador Ellis Briggs Thursday. An American embassy spokesman said Bullitt is in Korea as "a private citizen" and not on any mission for the government.

Condition Satisfactory

Boston, June 11 (AP)—British Foreign Secretary Anthony Eden, who underwent surgery yesterday, was reported in satisfactory condition early today at the New England Deaconess Hospital. The operation was to ease an obstruction in the main bile duct.

Sides Work In Korea on Truce Draft

No Immediate Signing Anticipated as Top Negotiators Go From Munsan

Munsan, June 11 (AP) — Allied and Red staff officers raced today to complete an armistice draft as South Korea boiled with new demonstrations and a threat to disregard any truce.

Three of the five UN command negotiators left this base camp temporarily as lower-level staff officers worked on details of the truce document in secret sessions at Panmunjom.

With the full-dress meetings in recess subject to call by either side, Lt. Gen. William K. Harrison, senior allied delegate, visited the U. S. Third Division at the battlefront and rear Adm. John C. Daniel and Brig. Gen. Egbert Glenn went to Tokyo.

Any major armistice action requires their presence. A UN spokesman pointed out that the top negotiators could be assembled in a matter of hours but their departure nevertheless suggested that the allied command did not foresee a full dress meeting for at least a few days.

More Resistance Shown

Meanwhile, South Korea balked more and more in its "no unification-no armistice" stand.

As thousands of demonstrators tramped the streets of Seoul and Pusan, Acting Premier Pyun Yung Tai hinted that South Korean troops would refuse to withdraw from the 2½-mile-wide buffer zone to be set up between allies and Reds in a truce. After a special cabinet meeting, Puyn said South Korea "can not and will not accept any part of the armistice terms."

Pyun has been the most outspoken and vitriolic of government leaders.

President Syngman Rhee, in a message to the South Korean people, said a truce under current terms means "death to South Korea." He said he had been explaining this point to the other allied nations and, "we intend to do so continually."

Warns Citizenry

However, Rhee warned his people against "unruly conduct" toward UN personnel during "this time of national crisis" and said any such unfriendly acts would be subject to stern punishment.

The 78-year-old president said he could not agree with statements by President Eisenhower that "a truce in Korea will be advantageous to this country in many ways."

"We regret it very much," he said "that we take a different view to his friendly advice and that this is unavoidable because a truce on present terms simply means death to us."

Before Rhee spoke, 30,000 chanting Koreans paraded through Pusan, the temporary capital, carrying placards urging: "Give us unification or give us death" and "drive away the Chinese Reds."

In Seoul, other thousands tramped the streets in orderly groups, waving banners, shouting and singing. About 1,200 students demonstrated in front of the allied correspondents billets, but there was no violence.

Two Women Killed

Baltimore, June 11 (AP)—Two women packing Christmas tree ornaments were killed yesterday by an explosion and fire in a downtown factory. Three other women employes were injured and 70 persons fled into the street. The cause of the blast in the ornament company's lacquer room was not determined.

Washington, June 11 (AP)—The position of the treasury June 9: Net budget receipts $216,609,174.50. Budget expenditures $439,434,200.41. Cash balance $2,759,956,120.09. Customs receipts for month $17,634,518.01. Budget receipts for fiscal year July 1, $56,475,162,030.15. Budget expenditures fiscal year $68,709,344,511.11 Budget deficit $13,234,182,480.96. Five Nations Will Work As POWs Commission

Newburgh Span Survey Is Valid

Wood Seized; Gives No News Of Other Men

Hopewell Junction, June 11 (AP)—A 60-man sheriff's posse sought an escaped insane criminal today about 10 miles from where one of his two fugitives companions was caught last night.

Putnam county officials organized a search around Smith Mountain, just south of the Dutchess county line, on a report that William Schmit, 20, of Lake Ronkonkoma on Long Island, had been sighted in the woods.

Raymond Wood, 27, of Oneonta, was captured last night. He was returned this morning to the Matteawan State Hospital for Criminal Insane.

Schmit, Wood and William Shanks, 30-year-old Brooklyn Negro, escaped from Matteawan early Sunday.

Says They Split Up

Dr. John F. McNeill, director of the hospital, said after talking with Wood that the prisoner insisted the three had split up immediately after their escape and he had no idea where Schmit or Shanks may be.

Officials found on Wood a long-bladed kitchen knife, a blanket and a file. The items, together with his fresh-shaven appearance, indicated police said, that he had broken into one of the closed summer cottages in the heavily wooded section.

As the search for Schmit was pressed by Putnam officials, a hunt by state troopers and sheriff's men continued in Dutchess county with road blocks and a foot patrol.

Seized by Policeman

Wood was captured at Fishkill by the village's long - full-time policeman, Benjamin Puff, 43, who recognized Wood walking along a track of the New York, New Haven and Hartford Railroad. He pounced on Wood and quickly overpowered him. The fugitive was carrying a knife.

Puff turned his man over to state police at Fishkill and after questioning they returned him early today to Matteawan State hospital at Beacon, an institution for the criminal insane.

Recapture of Wood did little to alleviate the fear that has gripped a large part of the Dutchess county countryside since the three men escaped.

Goldstein Declares Kingston Bridge Not Affected by Action

The New York State Bridge Authority has been given the go-ahead signal to make a premilinary survey for the construction of the Newburgh-Beacon Bridge, which, in the opinion of Attorney General Nathaniel L. Goldstein, of Albany, will not be a determent to the completion of the Kingston-Rhinecliff structure.

Chairman James F. Loughran of the State Bridge Authority was authorized and directed to proceed with this survey during a meeting of the authority members in Kingston.

The Bridge Authority, according to information received today, has asked Attorney General Goldstein whether it could "undertake necessary preliminary surveys and the possible designs of the proposed span without violating the spirit as expressed" in Section 528, Chapter 729, of the Laws of 1953.

Reply to Authority

In his reply to the Bridge Authority, Attorney General Goldstein wrote:

"Sub-Division 16 expressly empowers your authority to make investigations for the purpose of determining whether it is in the public's interest to construct the Newburgh-Beacon Bridge and in connection therewith to contract with engineers, surveyors, contractors and others for preliminary plans for boring, surveys and estimates of cost.

"In my opinion," the state official continued, "the aforesaid restriction is not an impediment to your undertaking such authorized preliminary work prior to the completion of the construction of the Kingston-Rhinecliff bridge."

Resolution Adopted

As a result of the ruling from Albany, the Bridge Authority members yesterday adopted a resolution authorizing and directing Chairman Loughran to proceed with such surveys and "to gather all information which may be required and necessary for the action of this authority."

The following resolution was adopted at yesterday's meeting:

"The chairman is hereby empowered to employ such surveyors or assistants as may be necessary and consistent with the interests of this authority, excepting from this employment the firm or firm's consulting engineer who will do the designing and bridge structure foundation, such employment of said consulting engineers to be acted upon at a future meeting of this bridge authority."

Poughkeepsie Plea Heard

Also heard at yesterday's conference was a plea from Mayor Stevens of Poughkeepsie for a share of bridge toll revenues to help Poughkeepsie pay its share of the cost of a downtown arterial highway. The proposed highway would form what is described as "badly needed" approaches to the Poughkeepsie vehicular bridge.

It was announced at the meeting that Poughkeepsie was informed by the state that the total cost of the city's share of land acquisition within one mile of the Poughkeepsie Bridge would be about $600,000.

The Bridge Authority members, after hearing the plea, displayed a sympathetic attitude but took no definite action.

The members indicated a full awareness of the problem and informally expressed a willingness to cooperate in whatever way possible. A letter indicating the Authority's position was ordered sent to Mayor Stevens.

Living Bonus Is Granted

Also decided yesterday was a $200 cost of living bonus to be given to all employes of the State Bridge Authority.

Others besides Chairman Loughran attending the meeting in Kingston Wednesday were Robert Hoe, Poughkeepsie; Dr. John L. Edwards, Hudson and Harry Cohen, Newburgh.

What South Korea Will Do Is Big Concern at Capital

Washington, June 11 (AP)—All five nations proposed for membership of a neutral prisoner of war commission in Korea are now expected to serve—thereby eliminating one of the last barriers to a truce.

U. S. officials still privately expressed concern today over the big and probably final barrier—what South Korea will do. But there was increasing confidence here that at some point before, or about the time, the fighting ends President Syngman Rhee will agree to go along with a ceasefire.

Reiterates Stand

Just last night, however, Korean Ambassador You Chan Yang reiterated on a CBS radio broadcast here that his government is determined not to sign a truce which would leave Korea divided.

"We feel definitely this is not going to bring peace to us or to you either," he said. "This is a prelude to a larger, much more destructive war. When the Communists are fully prepared and have enough stockpiles, they will strike at the heart of the industrial centers of the U. S., because that's what they hate most."

There is no longer any doubt here that the technical details yet to be settled with the Communist command by the UN negotiators at Panmunjom will be resolved in a relatively short time. These details are concerned chiefly with laying out the zone which will divide the armies after an armistice.

Message Is Released

Meanwhile, the Korean Embassy released last night a message sent 12 days ago by Rhee to President Eisenhower asking for a defense treaty with the U. S. and including a provision for keeping U. S. air and naval forces in the Korean area indefinitely as protection against new aggression.

Rhee's other requests, including withdrawal of Communists and UN forces, had previously been announced.

South Koreans have talked about a U. S.-Korean defense pact as one requirement which would enable them to go along with the proposed truce. Last Saturday Eisenhower, responding to Rhee's appeal, offered a defense treaty but at the same time indicated that such a pact would not constitute a blank check for South Korea in the future to seek to take over Communist North Korea by force. The U. S. position is that the country must be unified by peaceful methods.

One Critical Factor

The South Korean attacks on the impending armistice agreement became a factor of critical importance in setting up the post-armistice war prisoner repatriation commission when Switzerland announced Tuesday a refusal to serve unless South Korea approved. Yesterday, however, the

Scientist Doubts Blasts Are Cause

Schenectady, June 11 (AP)—A rain-making weather scientist believes it was just a coincidence that tornadoes struck in the midwest and east shortly after the recent atomic test explosions.

Dr. Vincent J. Schaefer, a research associate at the General Electric Company laboratory here, said yesterday he doubted that the atomic tests were responsible for the twisters this week.

He told a newsman an atomic blast actually was "quite a small disturbance of the atmosphere." A "very small" thunderstorm creates atmospheric energy "10 times as high" as that created by an atomic explosion, Schaefer said.

New England Is Probing Wreckage Of Disaster Area

Toll of Deaths Is Placed at 82, 13 Missing, 800 Hurt and 7,000 Homeless

Worcester, Mass., June 11 (AP)—Rehabilitation operations were in full swing today on the second day after New England's worst tornado cut a swath of death and destruction through central Massachusetts.

And as steps were taken to speed the appropriation of federal and state funds and the payment of insurance policies, the stricken area counted this toll:

Dead—82, with two still unidentified.

Missing—13

Injured—About 800.

Homeless—About 7,000.

Damage—Estimated by Gov. Christian A. Herter at 75 Million dollars.

Early today, President Eisenhower designated the stricken region as a major disaster area, qualifying it for federal aid.

Rescue workers, meanwhile, continued their search through the wreckage of hundreds of homes and business establishments in 12 communities for more bodies.

Area Is Patrolled

Some 2,000 national guardsmen patrolled the devastated area to prevent looting and keep unauthorized persons away.

Col. William F. Bigelow, military commander of the Worcester National Guard area, imposed a strict 5 p. m. (EST) curfew law in the area after reporting "there's been looting. Just how much we don't know."

All but pass holders, police and firefighters have been ordered to keep away from the patrolled area after the curfew.

Col. Bigelow told his troops: "Keep everyone else out, even if you have to shoot to do it."

Sign Is Undamaged

Worcester, Mass., June 11 (AP)—Undamaged by Tuesday night's tornado was this sign on the Worcester City Hall:

"Worcester now leads the nation in safety. Help keep the record, now 15 deathless days."

Bad Break Is Reported on Three Hills

Communists Release 54,000 Rounds of Artillery and Mortar Shells

Seoul, June 11 (AP)— Chinese troops in almost regimental strength cracked through a main line Allied position in Central Korea today and fought off bitter counterattacks by two South Korean forces.

To the west, troops of the 15th Regiment, U.S. Third Division smashed back six Communist attacks as an estimated 8,000 to 10,000 Reds hit American and South Korean positions along the front.

The Third Division reported killing and wounding about 600 Chinese.

The Eighth Army identified the Third Division as fighting on the sector northeast of Chorwon to give it credit for hurling back the Communists in a savage outpost battle.

A briefing officer said two Chinese battalions broke through the main line position defended by South Koreans, then quickly reinforced to almost regimental strength—perhaps 3,000 men.

Driven From Hills

In the outpost Texas area of the east-central front Reds attacking along a 2,000 yard sector drove South Koreans from three different hill positions, the army said.

The breakthrough occurred southeast of outpost Texas. An Army spokesman said the breakthrough is serious, but that the entire area of the battle front is not threatened.

The Reds drove South Koreans from three important hill positions in cracking through the line at several points along a 2,000 yard front, the army said.

Officers of the Fifth South Korean Division estimated the Reds fired 54,000 rounds of artillery and mortar shells into Allied lines during the night and after dawn Thursday.

Some observers said the Chinese appeared to be trying to grab all possible territory before an armistice since ground won now may be a gain in the truce settlement.

Six Attacks Beaten

Third Division infantrymen hurled back six attacks against outpost Harry, 10 miles northeast of Chorwon, after hours of close-quarter fighting, at time hand to hand.

The army said some Communist troops sliced through U. S. lines at a few points, but all were hurled back when Third Division troops counterattacked at dawn.

The Reds poured 20,000 artillery and mortar shells into the U. S. lines before and during the assaults. And two Communist tanks pumped high velocity shells into American positions.

Allied fighter bombers pounded the Reds along the exploding east central front Thursday morning, following up pre-dawn bomb drops by B-26 bombers.

North of the battleline, 16 Australian Meteor jets rocketed napalm into a Red rail marshalling yard at Sariwon, destroying one locomotive, two boxcars, a rail shed and a building, the air force said.

Ten U. S. Sabre jet fighter-bombers destroyed three anti-aircraft guns and damaged two more in a gun nest two miles north of Pyonggang.

Sabre fighters prowled MIG alley but found no MIGs.

Order Is Ignored

Paducah, Ky., June 11 (AP)—Operations at the giant atomic energy plant near here remained idle for the third day in a row today after about 10,000 construction workers ignored a union order to return to work. The prime contractor at the plant, F. H. McGraw and Company, yesterday announced it had discharged 250 union painters, who set up what was described as an unauthorized picket line.

18-Year-Olds Have Triplets

New York, June 11 (AP)—An 18-year-old New Yorker and his 18-year-old wife are the proud parents of triplets, all girls. "This is the happiest day of my life," said Michael Chiques, the youthful father, a Bronx garage mechanic, "but I've got to look for another apartment quick. We live in a $39 a month, two-room flat. I've got to look for another job, too. This is too big a family to support on $45 a week."

Protestant Church Gets Big Concessions From East German Reds to Quiet Discontent

Berlin, June 11 (AP)—East Germany's Red rulers announced sweeping cutbacks last night in the communication of the Soviet-occupied territory and signed a peace treaty giving the powerful Protestant church big concessions.

Both startling developments—western quarters figured the Kremlin ordered them—apparently were aimed at making the east zone a more attractive candidate for unification with the more prosperous and free West Germany.

They appeared also designed to quiet the widespread fear and discontent among East Germany's 18 million residents which have sent thousands fleeing each week to the west.

Announcing the communization cutbacks directed by the ruling politburo of the East German Communist party, Premier Otto Grotewohl said the group "is aiming at the reestablishment of the unity of Germany which requires from both sides concrete measures to bring this about."

The concessions to the Germans from their Red rulers also gave new ammunition to West German opponents of Chancellor Konrad Adenauer's campaign to bring Germany's western half into military alliance with the NATO nations.

The powerful Socialist opposition and other West German groups already are much impressed by previous Soviet peace overtures. The Communist moves were certain to make new trouble for the western-minded Adenauer.

The sudden Communist "switch" took western circles by surprise and most top allied and German leaders were loath to comment. One high American official described the Red announcement as the "most significant" of postwar times here.

Some western officials here expressed belief that the moves were only a prelude to some other important Soviet action, perhaps a Kremlin call for a Four-Power meeting on Germany.

The Politburo directives provided for:

1. No further extension of the collective farm system.

2. Making state bank credits available to private businessmen. Those who have been forced out of business will be granted permission to set up shop again.

3. Returning confiscated property and full civil rights to persons who come back to East Germany after fleeing to the west.

4. A general amnesty for all prisoners serving one to three years on charges of having damaged the state-owned economy.

5. Issuance of ration cards to all persons. The state recently withheld cards from 250,000 East Germans, regarded as outside the favors of the Red circle.

The pact to end the bitter church-state battle was announced jointly by Grotewohl and Bishop Otto G. Dibelius, head of the Protestant Church for all Germany. Its nine points, covering most of the main issues, sharply reversed the government's hostile attitude of the past few months.

The Protestants are the most powerful religious group in East Germany. Bishop Dibelius' flock includes 16 million of the east's 18 million and 25 of the 48 million in the west.

German Catholic officials welcomed the agreement and said they hoped to obtain a similar promise of relief from Communist persecution.

Police Board Will Name 11 To Bring Force to 49 Men

Eleven men were to be appointed to the Kingston Police Department at today's meeting of the police board, to raise the strength of the force to 49 and permit a 40-hour week.

The commissioners were to meet in the mayor's office at 3:30 p. m. to make the appointments and consider other police business, including arrangements for a school to train the new officers.

Mayor Newkirk, president of the board, said he and Chief Raymond Van Buren considered the school "a must" in these days when police work makes heavier demands than at any time in the past.

Newkirk said the school is scheduled to start on June 22 and run through the 29th, with sessions from 9 a. m. to 5 p. m.

Instructors will be here from the Federal Bureau of Investigation to give lessons in handling firearms and cover police topics in general.

Chief Van Buren said he was exceedingly pleased with the arrangement, feeling that the new men would have the advantage of expert instructions.

Phases of the law will be covered in lectures by County Judge John M. Cashin, who will cover Children's Court procedures; City Judge Mino on city ordinances and topics related to his court; District Attorney Howard St. John and Louis G. Bruhn, former district attorney, who will cover legal procedures in general.

Members of the police board are Robert Evory, Willis Locke, William Singer and James Murphy.

At the meeting of the board last month, three new officers were named from the existing police list, James Harbeck, Francis Loeffler and Crawford Millham.

Since the appointment of the three, Patrolman Kenneth Stratton resigned from the force. A replacement was to be named for him today, and the 10 others going on were to bolster the force for the 40-hour week, which the Kingston Patrolmen's Association has been urging for some time.

After a special cabinet meeting, Puyn said South Korea "can not and will not accept any part of the armistice terms."

Pyun has been the most outspoken and vitriolic of government leaders.

President Syngman Rhee, in a message to the South Korean people, said a truce under current terms means "death to South Korea." He said he had been explaining this point to the other allied nations and, "we intend to do so continually."

Warns Citizenry

However, Rhee warned his people against "unruly conduct" toward UN personnel during "this time of national crisis" and said any such unfriendly acts would be subject to stern punishment.

The 78-year-old president said he could not agree with statements by President Eisenhower that "a truce in Korea will be advantageous to this country in many ways."

"We regret it very much," he said "that we take a different view to his friendly advice and that this is unavoidable because a truce on present terms simply means death to us."

Before Rhee spoke, 30,000 chanting Koreans paraded through Pusan, the temporary capital, carrying placards urging: "Give us unification or give us death" and "drive away the Chinese Reds."

In Seoul, other thousands tramped the streets in orderly groups, waving banners, shouting and singing. About 1,200 students demonstrated in front of the allied correspondents billets, but there was no violence.

Two Women Killed

Baltimore, June 11 (AP)—Two women packing Christmas tree ornaments were killed yesterday by an explosion and fire in a downtown factory. Three other women employes were injured and 70 persons fled into the street. The cause of the blast in the ornament company's lacquer room was not determined.

Five Nations Will Work As POWs Commission

Newburgh Span Survey Is Valid

Wood Seized; Gives No News Of Other Men

Hopewell Junction, June 11 (AP)—A 60-man sheriff's posse sought an escaped insane criminal today about 10 miles from where one of his two fugitives companions was caught last night.

Putnam county officials organized a search around Smith Mountain, just south of the Dutchess county line, on a report that William Schmit, 20, of Lake Ronkonkoma on Long Island, had been sighted in the woods.

Raymond Wood, 27, of Oneonta, was captured last night. He was returned this morning to the Matteawan State Hospital for Criminal Insane.

Schmit, Wood and William Shanks, 30-year-old Brooklyn Negro, escaped from Matteawan early Sunday.

Says They Split Up

Dr. John F. McNeill, director of the hospital, said after talking with Wood that the prisoner insisted the three had split up immediately after their escape and he had no idea where Schmit or Shanks may be.

Officials found on Wood a long-bladed kitchen knife, a blanket and a file. The items, together with his fresh-shaven appearance, indicated police said, that he had broken into one of the closed summer cottages in the heavily wooded section.

As the search for Schmit was pressed by Putnam officials, a hunt by state troopers and sheriff's men continued in Dutchess county with road blocks and a foot patrol.

Seized by Policeman

Wood was captured at Fishkill by the village's long-time full-time policeman, Benjamin Puff, 43, who recognized Wood walking along a track of the New York, New Haven and Hartford Railroad. He pounced on Wood and quickly overpowered him. The fugitive was carrying a knife.

Puff turned his man over to state police at Fishkill and after questioning they returned him early today to Matteawan State hospital at Beacon, an institution for the criminal insane.

Recapture of Wood did little to alleviate the fear that has gripped a large part of the Dutchess county countryside since the three men escaped.

Goldstein Declares Kingston Bridge Not Affected by Action

The New York State Bridge Authority has been given the go-ahead signal to make a premilinary survey for the construction of the Newburgh-Beacon Bridge, which, in the opinion of Attorney General Nathaniel L. Goldstein, of Albany, will not be a determent to the completion of the Kingston-Rhinecliff structure.

Chairman James F. Loughran of the State Bridge Authority was authorized and directed to proceed with this survey during a meeting of the authority members in Kingston.

The Bridge Authority, according to information received today, has asked Attorney General Goldstein whether it could "undertake necessary preliminary surveys and the possible designs of the proposed span without violating the spirit as expressed" in Section 528, Chapter 729, of the Laws of 1953.

Reply to Authority

In his reply to the Bridge Authority, Attorney General Goldstein wrote:

"Sub-Division 16 expressly empowers your authority to make investigations for the purpose of determining whether it is in the public's interest to construct the Newburgh-Beacon Bridge and in connection therewith to contract with engineers, surveyors, contractors and others for preliminary plans for boring, surveys and estimates of cost.

"In my opinion," the state official continued, "the aforesaid restriction is not an impediment to your undertaking such authorized preliminary work prior to the completion of the construction of the Kingston-Rhinecliff bridge."

Resolution Adopted

As a result of the ruling from Albany, the Bridge Authority members yesterday adopted a resolution authorizing and directing Chairman Loughran to proceed with such surveys and "to gather all information which may be required and necessary for the action of this authority."

The following resolution was adopted at yesterday's meeting:

"The chairman is hereby empowered to employ such surveyors or assistants as may be necessary and consistent with the interests of this authority, excepting from this employment the firm or firm's consulting engineer who will do the designing and bridge structure foundation, such employment of said consulting engineers to be acted upon at a future meeting of this bridge authority."

Poughkeepsie Plea Heard

Also heard at yesterday's conference was a plea from Mayor Stevens of Poughkeepsie for a share of bridge toll revenues to help Poughkeepsie pay its share of the cost of a downtown arterial highway. The proposed highway would form what is described as "badly needed" approaches to the Poughkeepsie vehicular bridge.

It was announced at the meeting that Poughkeepsie was informed by the state that the total cost of the city's share of land acquisition within one mile of the Poughkeepsie Bridge would be about $600,000.

The Bridge Authority members, after hearing the plea, displayed a sympathetic attitude but took no definite action.

The members indicated a full awareness of the problem and informally expressed a willingness to cooperate in whatever way possible. A letter indicating the Authority's position was ordered sent to Mayor Stevens.

Living Bonus Is Granted

Also decided yesterday was a $200 cost of living bonus to be given to all employes of the State Bridge Authority.

Others besides Chairman Loughran attending the meeting in Kingston Wednesday were Robert Hoe, Poughkeepsie; Dr. John L. Edwards, Hudson and Harry Cohen, Newburgh.

What South Korea Will Do Is Big Concern at Capital

Washington, June 11 (AP)—All five nations proposed for membership of a neutral prisoner of war commission in Korea are now expected to serve—thereby eliminating one of the last barriers to a truce.

U. S. officials still privately expressed concern today over the big and probably final barrier—what South Korea will do. But there was increasing confidence here that at some point before, or about the time, the fighting ends President Syngman Rhee will agree to go along with a ceasefire.

Reiterates Stand

Just last night, however, Korean Ambassador You Chan Yang reiterated on a CBS radio broadcast here that his government is determined not to sign a truce which would leave Korea divided.

"We feel definitely this is not going to bring peace to us or to you either," he said. "This is a prelude to a larger, much more destructive war. When the Communists are fully prepared and have enough stockpiles, they will strike at the heart of the industrial centers of the U. S., because that's what they hate most."

There is no longer any doubt here that the technical details yet to be settled with the Communist command by the UN negotiators at Panmunjom will be resolved in a relatively short time. These details are concerned chiefly with laying out the zone which will divide the armies after an armistice.

Message Is Released

Meanwhile, the Korean Embassy released last night a message sent 12 days ago by Rhee to President Eisenhower asking for a defense treaty with the U. S. and including a provision for keeping U. S. air and naval forces in the Korean area indefinitely as protection against new aggression.

Rhee's other requests, including withdrawal of Communists and UN forces, had previously been announced.

South Koreans have talked about a U. S.-Korean defense pact as one requirement which would enable them to go along with the proposed truce. Last Saturday Eisenhower, responding to Rhee's appeal, offered a defense treaty but at the same time indicated that such a pact would not constitute a blank check for South Korea in the future to seek to take over Communist North Korea by force. The U. S. position is that the country must be unified by peaceful methods.

One Critical Factor

The South Korean attacks on the impending armistice agreement became a factor of critical importance in setting up the post-armistice war prisoner repatriation commission when Switzerland announced Tuesday a refusal to serve unless South Korea approved. Yesterday, however, the

Scientist Doubts Blasts Are Cause

Schenectady, June 11 (AP)—A rain-making weather scientist believes it was just a coincidence that tornadoes struck in the midwest and east shortly after the recent atomic test explosions.

Dr. Vincent J. Schaefer, a research associate at the General Electric Company laboratory here, said yesterday he doubted that the atomic tests were responsible for the twisters this week.

He told a newsman an atomic blast actually was "quite a small disturbance of the atmosphere." A "very small" thunderstorm creates atmospheric energy "10 times as high" as that created by an atomic explosion, Schaefer said.

New England Is Probing Wreckage Of Disaster Area

Toll of Deaths Is Placed at 82, 13 Missing, 800 Hurt and 7,000 Homeless

Worcester, Mass., June 11 (AP)—Rehabilitation operations were in full swing today on the second day after New England's worst tornado cut a swath of death and destruction through central Massachusetts.

And as steps were taken to speed the appropriation of federal and state funds and the payment of insurance policies, the stricken area counted this toll:

Dead—82, with two still unidentified.

Missing—13

Injured—About 800.

Homeless—About 7,000.

Damage—Estimated by Gov. Christian A. Herter at 75 Million dollars.

Early today, President Eisenhower designated the stricken region as a major disaster area, qualifying it for federal aid.

Rescue workers, meanwhile, continued their search through the wreckage of hundreds of homes and business establishments in 12 communities for more bodies.

Area Is Patrolled

Some 2,000 national guardsmen patrolled the devastated area to prevent looting and keep unauthorized persons away.

Col. William F. Bigelow, military commander of the Worcester National Guard area, imposed a strict 5 p. m. (EST) curfew law in the area after reporting "there's been looting. Just how much we don't know."

All but pass holders, police and firefighters have been ordered to keep away from the patrolled area after the curfew.

Col. Bigelow told his troops: "Keep everyone else out, even if you have to shoot to do it."

Sign Is Undamaged

Worcester, Mass., June 11 (AP)—Undamaged by Tuesday night's tornado was this sign on the Worcester City Hall:

"Worcester now leads the nation in safety. Help keep the record, now 15 deathless days."

Bad Break Is Reported on Three Hills

Communists Release 54,000 Rounds of Artillery and Mortar Shells

Seoul, June 11 (AP)— Chinese troops in almost regimental strength cracked through a main line Allied position in Central Korea today and fought off bitter counterattacks by two South Korean forces.

To the west, troops of the 15th Regiment, U.S. Third Division smashed back six Communist attacks as an estimated 8,000 to 10,000 Reds hit American and South Korean positions along the front.

The Third Division reported killing and wounding about 600 Chinese.

The Eighth Army identified the Third Division as fighting on the sector northeast of Chorwon to give it credit for hurling back the Communists in a savage outpost battle.

A briefing officer said two Chinese battalions broke through the main line position defended by South Koreans, then quickly reinforced to almost regimental strength—perhaps 3,000 men.

Driven From Hills

In the outpost Texas area of the east-central front Reds attacking along a 2,000 yard sector drove South Koreans from three different hill positions, the army said.

The breakthrough occurred southeast of outpost Texas. An Army spokesman said the breakthrough is serious, but that the entire area of the battle front is not threatened.

The Reds drove South Koreans from three important hill positions in cracking through the line at several points along a 2,000 yard front, the army said.

Officers of the Fifth South Korean Division estimated the Reds fired 54,000 rounds of artillery and mortar shells into Allied lines during the night and after dawn Thursday.

Some observers said the Chinese appeared to be trying to grab all possible territory before an armistice since ground won now may be a gain in the truce settlement.

Six Attacks Beaten

Third Division infantrymen hurled back six attacks against outpost Harry, 10 miles northeast of Chorwon, after hours of close-quarter fighting, at time hand to hand.

The army said some Communist troops sliced through U. S. lines at a few points, but all were hurled back when Third Division troops counterattacked at dawn.

The Reds poured 20,000 artillery and mortar shells into the U. S. lines before and during the assaults. And two Communist tanks pumped high velocity shells into American positions.

Allied fighter bombers pounded the Reds along the exploding east central front Thursday morning, following up pre-dawn bomb drops by B-26 bombers.

North of the battleline, 16 Australian Meteor jets rocketed napalm into a Red rail marshalling yard at Sariwon, destroying one locomotive, two boxcars, a rail shed and a building, the air force said.

Ten U. S. Sabre jet fighter-bombers destroyed three anti-aircraft guns and damaged two more in a gun nest two miles north of Pyonggang.

Sabre fighters prowled MIG alley but found no MIGs.

Order Is Ignored

Paducah, Ky., June 11 (AP)—Operations at the giant atomic energy plant near here remained idle for the third day in a row today after about 10,000 construction workers ignored a union order to return to work. The prime contractor at the plant, F. H. McGraw and Company, yesterday announced it had discharged 250 union painters, who set up what was described as an unauthorized picket line.

18-Year-Olds Have Triplets

New York, June 11 (AP)—An 18-year-old New Yorker and his 18-year-old wife are the proud parents of triplets, all girls. "This is the happiest day of my life," said Michael Chiques, the youthful father, a Bronx garage mechanic, "but I've got to look for another apartment quick. We live in a $39 a month, two-room flat. I've got to look for another job, too. This is too big a family to support on $45 a week."

Protestant Church Gets Big Concessions From East German Reds to Quiet Discontent

Berlin, June 11 (AP)—East Germany's Red rulers announced sweeping cutbacks last night in the communication of the Soviet-occupied territory and signed a peace treaty giving the powerful Protestant church big concessions.

Both startling developments—western quarters figured the Kremlin ordered them—apparently were aimed at making the east zone a more attractive candidate for unification with the more prosperous and free West Germany.

They appeared also designed to quiet the widespread fear and discontent among East Germany's 18 million residents which have sent thousands fleeing each week to the west.

Announcing the communization cutbacks directed by the ruling politburo of the East German Communist party, Premier Otto Grotewohl said the group "is aiming at the reestablishment of the unity of Germany which requires from both sides concrete measures to bring this about."

The concessions to the Germans from their Red rulers also gave new ammunition to West German opponents of Chancellor Konrad Adenauer's campaign to bring Germany's western half into military alliance with the NATO nations.

The powerful Socialist opposition and other West German groups already are much impressed by previous Soviet peace overtures. The Communist moves were certain to make new trouble for the western-minded Adenauer.

The sudden Communist "switch" took western circles by surprise and most top allied and German leaders were loath to comment. One high American official described the Red announcement as the "most significant" of postwar times here.

Some western officials here expressed belief that the moves were only a prelude to some other important Soviet action, perhaps a Kremlin call for a Four-Power meeting on Germany.

The Politburo directives provided for:

1. No further extension of the collective farm system.

2. Making state bank credits available to private businessmen. Those who have been forced out of business will be granted permission to set up shop again.

3. Returning confiscated property and full civil rights to persons who come back to East Germany after fleeing to the west.

4. A general amnesty for all prisoners serving one to three years on charges of having damaged the state-owned economy.

5. Issuance of ration cards to all persons. The state recently withheld cards from 250,000 East Germans, regarded as outside the favors of the Red circle.

The pact to end the bitter church-state battle was announced jointly by Grotewohl and Bishop Otto G. Dibelius, head of the Protestant Church for all Germany. Its nine points, covering most of the main issues, sharply reversed the government's hostile attitude of the past few months.

The Protestants are the most powerful religious group in East Germany. Bishop Dibelius' flock includes 16 million of the east's 18 million and 25 of the 48 million in the west.

German Catholic officials welcomed the agreement and said they hoped to obtain a similar promise of relief from Communist persecution.

Police Board Will Name 11 To Bring Force to 49 Men

Eleven men were to be appointed to the Kingston Police Department at today's meeting of the police board, to raise the strength of the force to 49 and permit a 40-hour week.

The commissioners were to meet in the mayor's office at 3:30 p. m. to make the appointments and consider other police business, including arrangements for a school to train the new officers.

Mayor Newkirk, president of the board, said he and Chief Raymond Van Buren considered the school "a must" in these days when police work makes heavier demands than at any time in the past.

Newkirk said the school is scheduled to start on June 22 and run through the 29th, with sessions from 9 a. m. to 5 p. m.

Instructors will be here from the Federal Bureau of Investigation to give lessons in handling firearms and cover police topics in general.

Chief Van Buren said he was exceedingly pleased with the arrangement, feeling that the new men would have the advantage of expert instructions.

Phases of the law will be covered in lectures by County Judge John M. Cashin, who will cover Children's Court procedures; City Judge Mino on city ordinances and topics related to his court; District Attorney Howard St. John and Louis G. Bruhn, former district attorney, who will cover legal procedures in general.

Members of the police board are Robert Evory, Willis Locke, William Singer and James Murphy.

At the meeting of the board last month, three new officers were named from the existing police list, James Harbeck, Francis Loeffler and Crawford Millham.

Since the appointment of the three, Patrolman Kenneth Stratton resigned from the force. A replacement was to be named for him today, and the 10 others going on were to bolster the force for the 40-hour week, which the Kingston Patrolmen's Association has been urging for some time.

Volunteer Firemen To Be Represented At 64th Meeting

A large contingent of volunteer firemen, including the entire Wicks Engine and Truck Company, Inc., and the Port Ewen Drum and Bugle Corps, will attend the 64th annual convention of the Hudson Valley Volunteer Firemen's Association at Lake George on Thursday, Friday and Saturday, June 18, 19 and 20.

Fire Chief Joseph L. Murphy of the Kingston Fire Department said he "may go" and believes some of the fire commissioners were also planning to attend.

William Hoffman, a member of Excelsior Hose, will attend as a delegate from the Ulster County Volunteer Firemen's Association, it was reported.

The Wicks unit and the Port Ewen Drum and Bugle Corps will travel to Lake George on the morning of June 20, participate in the parade and return the same day. Approximately 30 members of the Wicks Engine and Truck Company, Inc., are expected to make the trip.

An undetermined number of individuals from the Kingston-Ulster county area are also expected to swell local representation at the convention.

Outstanding features of the convention will include addresses by several prominent speakers including the Hon. J. Raymond McGovern, comptroller of the State of New York; B. Richter Townsend, chief of the Bureau of Fire Mobilization and Control of the State of New York, and Richard B. Fleming of the Rockwood Sprinkler Company.

Other convention features will include a memorial service for deceased members; a boat trip on beautiful Lake George on the M/V Ticonderoga, and a colorful firemen's parade on the closing day in which several thousand firemen, together with apparatus and musical units, will participate. The annual association banquet and program of entertainment will be held on Thursday evening, June 18, at the famed Fort William Henry Hotel.

Organized in 1890

The Hudson Valley Volunteer Firemen's Association, organized at Cexsackie on July 1, 1890, has a membership of nearly 2,000 firemen, including 425 fire companies, from the counties of Albany, Columbia, Dutchess, Greene, Orange, Putnam, Rensselaer, Rockland, Saratoga, Schenectady, Sullivan, Ulster, Washington, Warren and Westchester.

The convention this year is sponsored by the Lake George Volunteer Fire Company.

Weekly Food Review

(By The Associated Press)

Higher prices for eggs and pork confronted many U. S. housewives this week but there were bargains a-plenty on fruit and vegetable counters.

Bing cherries from the Pacific northwest, red plums and new white potatoes from California, peaches from Georgia and strawberries from New York state were among the many produce specials headlined by chain stores and supermarkets across the country.

Cantaloupe and watermelon, although slightly higher in price than last week, were listed as good buys in many areas. Also priced attractively were rhubarb, cabbage, spinach, beets and onions—all currently in plentiful supply in many areas.

Prices Are Higher

Egg prices were definitely on the upside. One major food chain boosted the price of its top grade large white eggs four cents a dozen in several major cities. Market experts said the increase reflected reduced output of laying flocks brought on by warmer weather.

Prices of center cut pork chops —at or near a dollar a pound last week—held firm or moved higher. In some instances they climbed as much as six cents a pound.

Beef prices showed little change. Chain stores featured rib roast, chuck roast, ground beef and all-beef frankfurters as specials for the coming weekend. Frying chickens were cheap and plentiful in most areas and roast ducklings were priced at budget levels in some mid-west markets. Fish was a big promotion item—halibut, whiting, bass, lobster and shrimp along the east coast and fresh whitefish in Chicago.

Retail butter prices were pretty much the same as last week despite some softening at the wholesale level. The government, which has bought up more than 228 million pounds of butter since November, is still the chief supporting influence, dealers said. Supplies of lower grade butter are piling up as a result of warmer weather and the price spread between prime quality and low grade butter is a little wider.

One eastern food chain featured dressed turkey as a weekend bargain. It advertised a single price for sizes ranging from 6 to 22 pounds.

Somewhat off the beaten track, but listed as among the best produce buys this week, were whole pineapples from Cuba.

Highway Safety Topic at Rotary

Robert Winne of Rhinebeck, who is an assistant district attorney of Dutchess county, spoke before the Rotary Club Wednesday on the curtailing of deaths and injuries on our highways. He also gave a very interesting account of the methods used in Rochester to enforce the speed control program and to secure convictions in drunken driving cases.

Attorney Winne said that he witnessed in Rochester an alleged drunken driver being booked in police headquarters and taken into a long room which contained a camera. The motor vehicle operator's actions in walking a straight line and picking an object from the floor would be filmed and his answers to questions would be tape recorded.

In the apprehension of speeders, radar equipped cars were used with two teams of policemen.

Both methods, he said, have resulted in many convictions and the fines received made the operations profitable.

He said Dutchess county was considering using radar equipped cars in its speed control program.

Volunteer Firemen To Be Represented At 64th Meeting

A large contingent of volunteer firemen, including the entire Wicks Engine and Truck Company, Inc., and the Port Ewen Drum and Bugle Corps, will attend the 64th annual convention of the Hudson Valley Volunteer Firemen's Association at Lake George on Thursday, Friday and Saturday, June 18, 19 and 20.

Fire Chief Joseph L. Murphy of the Kingston Fire Department said he "may go" and believes some of the fire commissioners were also planning to attend.

William Hoffman, a member of Excelsior Hose, will attend as a delegate from the Ulster County Volunteer Firemen's Association, it was reported.

The Wicks unit and the Port Ewen Drum and Bugle Corps will travel to Lake George on the morning of June 20, participate in the parade and return the same day. Approximately 30 members of the Wicks Engine and Truck Company, Inc., are expected to make the trip.

An undetermined number of individuals from the Kingston-Ulster county area are also expected to swell local representation at the convention.

Outstanding features of the convention will include addresses by several prominent speakers including the Hon. J. Raymond McGovern, comptroller of the State of New York; B. Richter Townsend, chief of the Bureau of Fire Mobilization and Control of the State of New York, and Richard B. Fleming of the Rockwood Sprinkler Company.

Other convention features will include a memorial service for deceased members; a boat trip on beautiful Lake George on the M/V Ticonderoga, and a colorful firemen's parade on the closing day in which several thousand firemen, together with apparatus and musical units, will participate. The annual association banquet and program of entertainment will be held on Thursday evening, June 18, at the famed Fort William Henry Hotel.

Organized in 1890

The Hudson Valley Volunteer Firemen's Association, organized at Coxsackie on July 1, 1890, has a membership of nearly 2,000 firemen, including 425 fire companies, from the counties of Albany, Columbia, Dutchess, Greene, Orange, Putnam, Rensselaer, Rockland, Saratoga, Schenectady, Sullivan, Ulster, Washington, Warren and Westchester.

The convention this year is sponsored by the Lake George Volunteer Fire Company.

Weekly Food Review

(By The Associated Press)

Higher prices for eggs and pork confronted many U. S. housewives this week but there were bargains a-plenty on fruit and vegetable counters.

Bing cherries from the Pacific northwest, red plums and new white potatoes from California, peaches from Georgia and strawberries from New York state were among the many produce specials headlined by chain stores and supermarkets across the country.

Cantaloupe and watermelon, although slightly higher in price than last week, were listed as good buys in many areas. Also priced attractively were rhubarb, cabbage, spinach, beets and onions—all currently in plentiful supply in many areas.

Prices Are Higher

Egg prices were definitely on the upside. One major food chain boosted the price of its top grade large white eggs four cents a dozen in several major cities. Market experts said the increase reflected reduced output of laying flocks brought on by warmer weather.

Prices of center cut pork chops —at or near a dollar a pound last week—held firm or moved higher. In some instances they climbed as much as six cents a pound.

Beef prices showed little change. Chain stores featured rib roast, chuck roast, ground beef and all-beef frankfurters as specials for the coming weekend. Frying chickens were cheap and plentiful in most areas and roast ducklings were priced at budget levels in some mid-west markets. Fish was a big promotion item—halibut, whiting, bass, lobster and shrimp along the east coast and fresh whitefish in Chicago.

Retail butter prices were pretty much the same as last week despite some softening at the wholesale level. The government, which has bought up more than 228 million pounds of butter since November, is still the chief supporting influence, dealers said. Supplies of lower grade butter are piling up as a result of warmer weather and the price spread between prime quality and low grade butter is a little wider.

One eastern food chain featured dressed turkey as a weekend bargain. It advertised a single price for sizes ranging from 6 to 22 pounds.

Somewhat off the beaten track, but listed as among the best produce buys this week, were whole pineapples from Cuba.

UNTYING THE KNOT

President Eisenhower is displaying a happy aptitude for choosing the right words to express his thoughts. In his recent television address to the American people he said that in the complicated realm of world affairs "there is no thought that you can cut the knots; you must untie them slowly and laboriously."

These are the words of a sensible, patient man who disdains the use of oversimplification. It is easy to work out policies which appeal to the public at the moment. It is much more difficult but much more honest and intelligent to approach solutions slowly and with an eye to seeing that the remedy is not worse than the ill which is to be cured.

The President made it plain that there is to be no appeasement of the Communists, no latter day "Munich." But he was also emphatic in his declaration that there is going to be "no risk of a general war." He said that he will attend the Bermuda conference with the idea of talking things over with our friends.

It was a temperate speech, filled with the knowledge of the terror and ruin that a full scale war could bring. Yet it was confident rather than fearful, purposeful rather than negative in its message. After so many rash utterances of leaders of both extremes of opinion on the affairs of the day it was reassuring to listen to the words of a President who seems to have a firm grasp of the entire picture.

A German recently broke the world record for marathon piano playing with 267 hours of playing with only one hour pause each day. We congratulate the record holder and commiserate with his neighbors.

Too often, it seems, the gossip many people are willing to help spread is the kind they don't like to hear about themselves.

PRESIDENT'S PANEL

President Eisenhower has introduced something new into the process of informing the American people about what their government is doing. He turned his recent radio-television broadcast into something resembling a panel discussion with four members of his cabinet giving brief reports on the problems and activities of the departments they head.

In his "fireside chats" President Franklin Roosevelt helped to revolutionize the relationship between the President and the people. He appealed to the people for their support in his various programs and reported to them on the progress he was making. President Eisenhower's idea of presenting cabinet leaders and allowing them to give their views may prove to be an equally important innovation.

The President's idea was well conceived and well executed. He began by making a short speech in which he stated some of his own ideas and then he introduced Secretary of Agriculture Ezra Taft Benson; Secretary of Health, Education and Welfare Oveta Culp Hobby; Secretary of the Treasury George Humphrey; and Attorney General Herbert Brownell, who gave brief accounts of what they have been doing and what they intend to do.

A workable democracy depends upon an interested and informed citizenry. Any move to give citizens a better idea of what is going on in government, especially when that information comes from the highest policy makers in the land, deserves applause.

Grandparents make excellent baby sitters, scores of parents know. And after a few hours of it the older folks often can truly appreciate the merit in reserving children for young people.

A newspaper headline tells us that "Baby Atom Pile Solves Many Nuclear Problems." Very significant, but we prefer watching our babies play in sand piles.

The person who is convinced that he is always right may end up by being left out.

Common sense sometimes seems mighty uncommon.

'These Days'

By GEORGE SOKOLSKY

A SENSE OF PROPORTION

Every year, about this time, I feel the closeness of the soil, a lust for the earth. I don't know why this should be so. City-bred, city-reared, I find myself at heart a peasant.

So I went up to my farm and met Pedrola. She had been named Pedro until it was discovered that she could lay eggs. So, she became Pedrola. Even Christine Jorgensen, male or female, as you please, cannot lay eggs, but Pedrola can. She must be a lady pigeon.

Now, I am not familiar with the ways of pigeons, having only seen them in the mass, hundreds or even thousands of them in parks or in the vicinity of churches. But never have I had any business with an individual pigeon until I met Pedrola. But here is an individual—a distinctive personality.

Pedrola follows a person as a dog does. She is interested in what is happening and pokes her nose into everybody's business. She walks along in constant conversation, apparently cocking an eye to see if she is being listened to.

I was new to Pedrola, but she took to me as a fellow-pigeon, cooing and gurgling and strutting. Of course, I did not understand her language, but it made no difference, for Pedrola had fallen in love. And the language of love is universal.

No pigeon had ever fallen in love with me before and I did not know the customs of pigeons at all. It was all so very sudden. Pedrola must have understood my dilemma, for she flew onto my shoulder, pecked at the lobe of my ear, and talked bewitchingly. As though that were not enough, she jumped on my head, became comfortable and went for a ride.

I had been warned that pigeons can be unseemly, but Pedrola apparently chose to have no untoward incidents. She sat calmly and with great dignity on my head, which must have made me look like a Viking or something. And when she wearied of that posture, she flew away, circled and returned.

My dog, Brownie, is very jealous of anyone paying me such attentions and I feared that Brownie might waylay Pedrola and eat her. But that did not happen. Each went her way in the presence of the Great Master.

I could not help thinking all the time how things in nature always go their own way, no matter what we humans do about it. A coronation attracts millions of people, but if it has to rain, it rains just the same even if a queen is being crowned.

The seasons know no wars and no peace, but rhythmically one follows the other and always in the proper order. Men and women plan and plot to make the world as they would have it, but the old world goes on behaving as it chooses.

It is like great craters made by shot and shell. But the grass comes in from nowhere, and then bracken appears and perhaps a tree, and the battle-scarred terrain is what it was meant to be. Nature is always at work, guided by the Divine Intelligence that strives for order no matter who else seeks disorder. For thousands of years, human beings have been creating their own disorders, always to find that in the end some laws of nature pull them right back into an orderly way of life.

Pedrola started me off in this direction. As I played with the pigeon in the calm of a Spring day on my farm, watching trees bud and flowers poke their noses through the earth, robins and woodpeckers making their nests, and all so busy doing what they have to do, I could not help wondering why we must make our lives so disorderly. Always we are so restless to make everything so disturbingly different.

Yet, it is this very disturbance which makes for the advances of this human race. But the question must arise in your mind, as it is now in mine, why can we not improve our world without disturbing our lives?

I suppose this question has been asked for thousands of years and nobody has the answer. Maybe that is why we still settle our great problems by war. But that does not seem to me to be an answer to anything. It leaves everything more disturbed and confused.

That Body of Yours

By JAMES W. BARTON, M.D.

FOODS CAUSING DERMATITIS OF HANDS

When the hands become inflamed—dermatitis—the first cause that comes to the mind of the physician is food allergy, the eating of certain foods to which the patient is allergic, and the first thought in treatment is the use of a strict trial diet. This means that the patient takes nothing by mouth except water for 24 hours and following this one simple food is added daily. This naturally requires close observation in hospital.

As this trial diet method of finding the offending food or foods may take some time, Dr. James M. Flood, Guthrie Clinic and Robert Parker Hospital, Sayre, Pa., in Postgraduate Medicine, states that after investigating 100 cases by this food trial diet, a diet has been selected which is made up of foods that are least likely to cause reactions.

To make the investigation of the cause or causes in a case easier and less expensive to the patient, Dr. Flood presents a low allergen diet and how it can be used on an "out-patient" basis for patients suffering from prolonged and recurrent dermatitis of the hands.

However, before presenting this low allergen diet, Dr. Flood makes clear that food allergy is only one cause of eczematous dermatitis of the hands; other causes may be contact dermatitis (where hands come in contact with various substances), fungus eruptions, drug eruptions, sweat eruptions and neurogenic (nerve) conditions, though eruptions due to nerves or emotional disturbances are not found as often as other causes.

After outlining symptoms or reactions from the above substances, the diet presented is made up of a group of foods that are least likely to cause a reaction. The basic diet used for the past five years consists of beer, salmon, cabbage, Ry-Krisp, cherries, pears, prunes, tea, salt, and sugar.

In preparing this diet, the patient must be cautioned not to add other foods in preparation of the meal—beefsteak must be broiled and not fried in butter or lard.

The importance of the diet is emphasized by the fact that no local treatment—drugs, X-ray,—is prescribed. Some loss of weight may occur as carbohydrates (starches) are kept low in amount.

The foods causing the largest number of reactions are wheat, tomato, pork, tuna fish (40 to 50 per cent).

Next, causing 30 to 40 per cent reactions are pineapple, eggs, lamb, chicken, chocolate, coffee.

Next, causing 20 to 30 per cent are: asparagus, white potato, rice, apples, peas, beets, peaches, sweet potato, corn, peanuts.

Next, causing 11 to 20 per cent: raisins, onion, spinach, oatmeal, carrots, apricots, oranges, cherries, lettuce, cucumbers.

Causing the least reactions, 10 per cent or less: beef, prunes, cabbage, salmon, peas, lemons, tea.

The basic diet mentioned above is usually given for four days. As these foods furnish his whole diet, too much of one food, to which he is sensitive may be taken and cause symptoms. Another food may then be substituted. After the four days the patient adds one food every second day.

Allergy

Many persons suffer such symptoms as hives, rashes, running noses, from being allergic or sensitive to various substances such as foods, feathers, dander, pollens. Read Dr. Barton's interesting booklet entitled "Allergy" which may be obtained by sending 25 cents, to cover cost of handling and mailing, to The Bell Syndicate, Inc., in care of The Kingston Daily Freeman, Post Office Box 99, Station G, New York 19, N. Y.

The Bear That Talks Like a Man

Edson's Washington News Notebook

By PETER EDSON
NEA Washington Correspondent

Washington, (NEA)—Secretary of Agriculture Ezra Taft Benson today faces a serious challenge to all the Eisenhower administration programs and promises to get the U. S. farm economy back on an uncontrolled, free-enterprise basis.

The situation arises out of huge surpluses of wheat and cotton now in sight. This year's crops in these two basic commodities won't be record breakers. But coupling the 1953 yields with carry-over surpluses from 1952 and reduced export markets, the present project is for still bigger surpluses on hand at the end of this crop year than there were a year ago.

These big surpluses will have a naturally depressing influence on prices. The problem that faces Secretary Benson is to decide what policies he will adopt to offset this downward trend.

One answer is to do nothing. This would be in line with a policy of letting a free play in the market place determine what farm prices shall be.

Such a course of action, or no action, would be supported by the theory that if prices go down, farmers will be influenced to plant less wheat and cotton. This would automatically use up the surplus. With a reduced supply on hand, the price would go up again in the next year and the situation would be automatically corrected.

This solution has two drawbacks. One is that the farmers would suffer a severe loss of income in the low-price year. The other is that a lowered price might influence farmers to plant still larger crops.

Increasing Planting

In following this course, the farmer would simply be reasoning that with his profit per bushel cut in half, he could make his normal income by planting a crop twice as large. The fallacy of this is that the doubled planting would tend to make the surpluses still bigger, and force prices still lower.

This actually happened back in 1932.

As opposed to these no-action policies of letting supply and demand correct their own abuses in a free market, there is a very definite program of controls which Secretary Benson might invoke under present law.

This would call for an election of all wheat and cotton farmers, to determine whether they would favor imposition of acreage limitations and marketing quota controls.

Under this program, every one of the two million wheat farmers and the one million cotton farmers would be entitled to a vote. If two-thirds of all the farmers planting either crop voted in favor of acreage limitations, the quotas would be applied to that crop. The Secretary of Agriculture could then set national quotas.

If more than one-third of the farmers voted against controls, they could not be imposed. In this case, the support price level would be dropped automatically to 50 per cent of parity.

Some experts believe that if this were allowed to happen, it would break the back of the entire farm-price-support system. In any event, it would give Congress a tremendous problem to decide next year.

Future Supports Are Problem

Present legislation calls for a support price of 90 per cent of parity on basic farm crops through 1954. If the farmers vote for acreage limitations and marketing quotas, the 90 per cent of parity support price on wheat and cotton would remain in effect while the controls were on.

The problem for Congress, however, would be what to do about support levels for 1955 and beyond. The alternatives are to end the support-price system, to keep the present fixed 90 per cent level, to raise it to 100, or to let it revert to a sliding scale between 75 and 90 per cent of parity.

Secretary Benson doesn't have long to make up his mind on these matters. He must decide by July 1 whether to ask for an election of wheat farmers on imposing a quota on the 1954 crop. He will probably wait until after the June 10 estimate of the 1953 crop before deciding. The election must be completed before winter wheat planting is begun.

On cotton, the decision on whether to call for an election must be made in November and the election must be held in December.

Two precautionary measures have already been taken in preparation for a possible call for farmer elections. Production Marketing Administration committeemen are already at work in the field, collecting records on acreages and yields so as to have a historical basis on which quotas might be based, if voted for. The Department of Agriculture has asked Congress for authority to use $4.5 million to conduct elections if they become necessary.

Use of quota controls hasn't been ruled out, at any rate.

Rhee Sought Privilege of Making Statement to Enemy Through United States

By DAVID LAWRENCE

Washington, June 11—The facts about the tragedy of Korea are slowly coming to light. For some strange reason, the White House has failed to make public the letter from President Rhee dated May 30 to which President Eisenhower replied on June 7.

In that letter from Mr. Rhee, it becomes evident that the Republic of Korea—which is not a member of the UN—asked for the simple privilege of making a proposal to the enemy through the United States. The Korean president wrote:

"Whatever academic arguments there may be against it, we cannot but feel that rough and rudimental justice calls for Korea to make one first and last proposal on its own part."

Then the Korean president declared that "any armistice arrangement which would allow the Chinese Communists to remain in Korea would mean to the Korean nation, in terms of eventualities, an acceptance of a death sentence without protest." Mr. Rhee added that, even if he personally were to agree to such an arrangement, "it will not help the matter very much, as subsequent developments, I fear, will show."

The main points of the Rhee proposal have been revealed in the last few days and constitute principally a request that before the armistice the United States agree to a mutual-defense pact with Korea. But the text itself is significant. Mr. Rhee wanted the defense pact worded this way:

"The United States will agree to come to our military aid and assistance immediately without any consultation or conference with any nation or nations, if and when the enemy nation or nations resume aggressive activities against the Korean peninsula."

But President Eisenhower pledged that he would send the type of treaty to Congress which would call for aid only "in accordance with constitutional processes." Yet President Truman intervened in Korea immediately to "repel aggression" and at no time either during the presidential campaign or thereafter has Mr. Eisenhower declared that ratification of a state of war by Congress was necessary. Naturally that's the kind of guarantee the Korean republic wants now, because it would mean instantaneous protection and not a palavering in Congress until long after invading armies had swept southern Korea.

Mr. Rhee also asked that there be submitted to the enemy now a proposal that Communist Chinese troops as well as United Nations troops be withdrawn, presumably during the armistice period. This was not referred to at all by President Eisenhower in his reply to President Rhee and has perhaps not even been transmitted to the enemy.

The Korean concept is that in June 1950 the armies of only one aggressor — the puppet government of North Korea—stood on the 38th Parallel. That army was beaten. But in its place another aggressor now stands on the battle line—Red China, with 700,000 troops—which constitutes a dangerous threat to the safety of the Korean Republic.

"The Communist puppet regime in North Korea," says Mr. Rhee, "has a military pact, I understand, with Red China, while the latter has another with the Soviet Union. Korea has nothing to counteract the formidable impact of this series of Communist military copulations."

If the Republic of Korea were a member of the UN, it might choose to rely on that organization, but it is not. It is inconceivable that, as has been suggested impatiently in some quarters, pressure be brought to bear on President Rhee and the Korean armies by withholding ammunition and supplies. One reason why this would appear to be a deplorable course is that President Eisenhower in his Minneapolis speech has just said:

"We cannot select those areas of the globe in which our policies or wishes may differ from our allies — build p o l i t c a l fences around these areas—and say to our allies: 'We shall do what we want here—and where you do what we want, there and only there shall we favor unity.' That is not unity. It is dictation. And it is not the way free men associate."

If the doctrine of dictation is to apply to the Republic of Korea—which has lost more than 1,000,000 persons in dead and wounded during the war—then it can only mean the prolonged presence of American troops on Korean soil to police Korean armies and coerce them into doing what the government of Great Britain wants done. P r i m e Minister Churchill is profuse in his applause for the recent action of the American president. This correspondent has learned that many personal messages from the British prime minister influenced Mr. Eisenhower to decide to ignore the wishes of South Korea and to bow instead to the wishes of Great Britain.

Poor Korea, ravaged by war, stands deserted, not exactly in the interest of "allied unity"—for she is an ally, too—but in deference to a political expediency in London and Washington that time will prove was mistaken.

AS PEGLER SEES IT

By WESTBROOK PEGLER

This is to abandon Laurence R. Feetham's illusion that the old cavalry carbine which was given to his father by Dr. H. M. Wheeler, of Grand Forks, N. D., was the one with which Doctor Wheelerer killed William Stiles, of the Jesse James gang, in the Northfield, Minn., bank robbery of Sept. 7, 1876, and to modify in minor particulars a story which is nevertheless a nugget of crude American history.

The Grand Forks Herald interviewed Mrs. Wheeler, who said Doctor Wheeler's gun was still in the family there. Mr. Feetham, now living in Seattle, politely bows to her as follows: "Let us accept the fact that the doctor's family should know about the gun."

The Herald published a picture of Henry Wheeler, apparently a young man, holding a carbine, with the late doctor's fabulous four-gauge shotgun, which looks like a gas-pipe mounted on a stock, standing beside him. Mrs. Wheeler said the carbine which Doctor Wheeler fired was carried by Charles Dampier, the hotel-keeper in Northfield, from 1861 to 1865 in the Union cavalry and that it was given to the Wheeler family when Mr. Dampier died. The gun that Wheeler gave the elder Feetham, now treasured by Laurence Feetham, probably is just another old cavalry carbine.

A large correspondence flowed out of the controversial memories of individuals scattered from Southern Pines, N. C., to Seattle and Las Vegas, Nev. The pure gold of all this is a legend that Wheeler, a poor young man studying medicine at the University of Michigan, showed up for his dissection course in the fall of 1876 with a cadaver all his own to work upon. These articles cost about $200 and when Wheeler nonchalantly remarked to a group of other students that he thought he would go and get in some work at this course, several of them exclaimed: "Did you get one? Where did you get him?"

Young Wheeler said: "I shot him," and was called upon to amplify his grisly account to the dean.

Mrs. Wheeler, as quoted in the Grand Forks Herald, recalled that her late husband and a son of Dampier both were studying medicine at Ann Arbor, and that the boys asked for the two cadavers left behind by the James gang.

"They were told," says the Herald, "that the bodies could not be given away but that they would not be buried very deep. They took up the bodies and shipped them to Ann Arbor."

The one killed by Wheeler was Clell Miller, whose family now went to Ann Arbor and took his body away. However, young Wheeler managed to keep the body of William Stiles, who, it appears from Mrs. Wheeler's memory of things, was shot by A. R. Manning, the man who ran the Northfield Hardware store. The Herald's account says Stiles' skeleton was on view in Doctor Wheeler's office until it was destroyed by fire at some date not specified. Apparently young Dampier was out of luck in the shuffle.

Doctor Wheeler had permission to carry a gun for some years after the raid because members of the Miller family had threatened to shoot him.

H. C. Hoffman, of Trail's End Ranch, Oxford, Ohio, said he and Jesse James, Jr., visited Cole Younger, one of three brothers who rode in this and other raids, as he lay dying at Lee's Summit, Mo., in 1916. He and Jesse, junior, bore Younger's pall. Mr. Hoffman writes that Younger gave him the gun he was carrying when he was captured at Madelia, Minn., 14 days after the raid. Hoffman gave this gun and other relics of the same chase to the State of Missouri in 1938 and they are now on exhibit in the State House at Jefferson City.

Mr. Hoffman says Stiles, alias Chadwell, lost his head and ran down an alley instead of mounting his horse for the getaway.

In this brief lapse he exposed himself to Wheeler's fire and was killed.

On the point of my observation that the James gang were rotten marksmen, based on the fact that they banged away regardless and killed only two unfortunates who were sitting ducks, Mr. Hoffman said the James boys and the Youngers "were recognized by oldtime experts as having no peers in the use of a six-gun."

Cole Younger told him, "we did not want to hit anyone. However, it was impossible to avoid hitting the cashier at the moment, it was kill or be killed." He points out that the gang fired 30 times at Mr. Manning, the hardware man, without even wounding him, the implication being that they didn't want to kill anyone unnecessarily.

To the contrary, we have an oration by Harry B. Hawes, former senator from Missouri, to

UNTYING THE KNOT

President Eisenhower is displaying a happy aptitude for choosing the right words to express his thoughts. In his recent television address to the American people he said that in the complicated realm of world affairs "there is no thought that you can cut the knots; you must untie them slowly and laboriously."

These are the words of a sensible, patient man who disdains the use of oversimplification. It is easy to work out policies which appeal to the public at the moment. It is much more difficult but much more honest and intelligent to approach solutions slowly and with an eye to seeing that the remedy is not worse than the ill which is to be cured.

The President made it plain that there is to be no appeasement of the Communists, no latter day "Munich." But he was also emphatic in his declaration that there is going to be "no risk of a general war." He said that he will attend the Bermuda conference with the idea of talking things over with our friends.

It was a temperate speech, filled with the knowledge of the terror and ruin that a full scale war could bring. Yet it was confident rather than fearful, purposeful rather than negative in its message. After so many rash utterances of leaders of both extremes of opinion on the affairs of the day it was reassuring to listen to the words of a President who seems to have a firm grasp of the entire picture.

A German recently broke the world record for marathon piano playing with 267 hours of playing with only one hour pause each day. We congratulate the record holder and commiserate with his neighbors.

Too often, it seems, the gossip many people are willing to help spread is the kind they don't like to hear about themselves.

PRESIDENT'S PANEL

President Eisenhower has introduced something new into the process of informing the American people about what their government is doing. He turned his recent radio-television broadcast into something resembling a panel discussion with four members of his cabinet giving brief reports on the problems and activities of the departments they head.

In his "fireside chats" President Franklin Roosevelt helped to revolutionize the relationship between the President and the people. He appealed to the people for their support in his various programs and reported to them on the progress he was making. President Eisenhower's idea of presenting cabinet leaders and allowing them to give their views may prove to be an equally important innovation.

The President's idea was well conceived and well executed. He began by making a short speech in which he stated some of his own ideas and then he introduced Secretary of Agriculture Ezra Taft Benson; Secretary of Health, Education and Welfare Oyetta Culp Hobby; Secretary of the Treasury George Humphrey; and Attorney General Herbert Brownell, who gave brief accounts of what they have been doing and what they intend to do.

A workable democracy depends upon an interested and informed citizenry. Any move to give citizens a better idea of what is going on in government, especially when that information comes from the highest policy makers in the land, deserves applause.

Grandparents make excellent baby sitters, scores of parents know. And after a few hours of it the older folks often can truly appreciate the merit in reserving children for young people.

'These Days'

By GEORGE SOKOLSKY

A SENSE OF PROPORTION

Every year, about this time, I feel the closeness of the soil, a lust for the earth. I don't know why this should be so. City-bred, city-reared, I find myself at heart a peasant.

So I went up to my farm and met Pedrola. She had been named Pedro until it was discovered that she could lay eggs. So, she became Pedrola. Even Christine Jorgensen, male or female, as you please, cannot lay eggs, but Pedrola can. She must be a lady pigeon.

Now, I am not familiar with the ways of pigeons, having only seen them in the mass, hundreds or even thousands of them in parks or in the vicinity of churches. But never have I had any business with an individual pigeon until I met Pedrola. But here is an individual—a distinctive personality.

Pedrola follows a person as a dog does. She is interested in what is happening and pokes her nose into everybody's business. She walks along in constant conversation, apparently cocking an eye to see if she is being listened to.

I was new to Pedrola, but she took to me as a fellow-pigeon, cooing and gurgling and strutting. Of course, I did not understand her language, but it made no difference, for Pedrola had fallen in love. And the language of love is universal.

No pigeon had ever fallen in love with me before and I did not know the customs of pigeons at all. It was all so very sudden. Pedrola must have understood my dilemma, for she flew onto my shoulder, pecked at the lobe of my ear, and talked bewitchingly. As though that were not enough, she jumped on my head, became comfortable and went for a ride.

I had been warned that pigeons can be unseemly, but Pedrola apparently chose to have no untoward incidents. She sat calmly and with great dignity on my head, which must have made me look like a Viking or something. And when she wearied of that posture, she flew away, circled and returned.

My dog, Brownie, is very jealous of anyone paying me such attentions and I feared that Brownie might waylay Pedrola and eat her. But that did not happen. Each went her way in the presence of the Great Master.

I could not help thinking all the time how things in nature always go their own way, no matter what we humans do about it. A coronation attracts millions of people, but if it has to rain, it rains just the same even if a queen is being crowned.

The seasons know no wars and no peace, but rhythmically one follows the other and always in the proper order. Men and women plan and plot to make the world as they would have it, but the old world goes on behaving as it chooses.

It is like great craters made by shot and shell. But the grass comes in from nowhere, and then bracken appears and perhaps a tree, and the battle-scarred terrain is what it was meant to be. Nature is always at work, guided by the Divine Intelligence that strives for order no matter who else seeks disorder. For thousands of years, human beings have been creating their own disorders, always to find that in the end some laws of nature pull them right back into an orderly way of life.

Pedrola started me off in this direction. As I played with the pigeon in the calm of a Spring day on my farm, watching trees bud and flowers poke their noses through the earth, robins and woodpeckers making their nests, and all so busy doing what they have to do, I could not help wondering why we must make our lives so disorderly. Always we are so restless to make everything so disturbingly different.

Yet, it is this very disturbance which makes for the advances of this human race. But the question must arise in your mind, as it is now in mine, why can we not improve our world without disturbing our lives?

I suppose this question has been asked for thousands of years and nobody has the answer. Maybe that is why we still settle our great problems by war. But that does not seem to me to be an answer to anything. It leaves everything more disturbed and confused.

That Body of Yours

By JAMES W. BARTON, M.D.

FOODS CAUSING DERMATITIS OF HANDS

When the hands become inflamed—dermatitis—the first cause that comes to the mind of the physician is food allergy, the eating of certain foods to which the patient is allergic, and the first thought in treatment is the use of a strict trial diet. This means that the patient takes nothing by mouth except water for 24 hours and following this one simple food is added daily. This naturally requires close observation in hospital.

As this trial diet method of finding the offending food or foods may take some time, Dr. James M. Flood, Guthrie Clinic and Robert Parker Hospital, Sayre, Pa., in Postgraduate Medicine, states that after investigating 100 cases by this food trial diet, a diet has been selected which is made up of foods that are least likely to cause reactions.

To make the investigation of the cause or causes in a case easier and less expensive to the patient, Dr. Flood presents a low allergen diet and how it can be used on an "out-patient" basis for patients suffering from prolonged and recurrent dermatitis of the hands.

However, before presenting this low allergen diet, Dr. Flood makes clear that food allergy is only one cause of eczematous dermatitis of the hands; other causes may be contact dermatitis (where hands come in contact with various substances), fungus eruptions, drug eruptions, sweat eruptions and neurogenic (nerve) conditions, though eruptions due to nerves or emotional disturbances are not found as often as other causes.

After outlining symptoms or reactions from the above substances, the diet presented is made up of a group of foods that are least likely to cause a reaction. The basic diet used for the past five years consists of beer, salmon, cabbage, Ry-Krisp, cherries, pears, prunes, tea, salt, and sugar.

In preparing this diet, the patient must be cautioned not to add other foods in preparation of the meal—beefsteak must be broiled and not fried in butter or lard.

The importance of the diet is emphasized by the fact that no local treatment—drugs, X-ray,—is prescribed. Some loss of weight may occur as carbohydrates (starches) are kept low in amount.

The foods causing the largest number of reactions are wheat, tomato, pork, tuna fish (40 to 50 per cent).

Next, causing 30 to 40 per cent reactions are pineapple, eggs, lamb, chicken, chocolate, coffee.

Next, causing 20 to 30 per cent are: asparagus, white potato, rice, apples, peas, beets, peaches, sweet potato, corn, peanuts.

Next, causing 11 to 20 per cent: raisins, onion, spinach, oatmeal, carrots, apricots, oranges, cherries, lettuce, cucumbers.

Causing the least reactions, 10 per cent or less: beef, prunes, cabbage, salmon, peas, lemons, tea.

The basic diet mentioned above is usually given for four days. As these foods furnish his whole diet, too much of one food, to which he is sensitive may be taken and cause symptoms. Another food may then be substituted. After the four days the patient adds one food every second day.

Allergy

Many persons suffer such symptoms as hives, rashes, running noses, from being allergic or sensitive to various substances such as foods, feathers, dander, pollens. Read Dr. Barton's interesting booklet entitled "Allergy" which may be obtained by sending 25 cents, to cover cost of handling and mailing, to The Bell Syndicate, Inc., in care of The Kingston Daily Freeman, Post Office Box 99, Station G, New York 19, N. Y.

The Bear That Talks Like a Man

Edson's Washington News Notebook

By PETER EDSON
NEA Washington Correspondent

Washington, (NEA)—Secretary of Agriculture Ezra Taft Benson today faces a serious challenge to all the Eisenhower administration programs and promises to get the U. S. farm economy back on an uncontrolled, free-enterprise basis.

The situation arises out of huge surpluses of wheat and cotton now in sight. This year's crops in these two basic commodities won't be record breakers. But coupling the 1953 yields with carry-over surpluses from 1952 and reduced export markets, the present project is for still bigger surpluses on hand at the end of this crop year than there were a year ago.

These big surpluses will have a naturally depressing influence on prices. The problem that faces Secretary Benson is to decide what policies he will adopt to offset this downward trend.

One answer is to do nothing. This would be in line with a policy of letting a free play in the market place determine what farm prices shall be.

Such a course of action, or no action, would be supported by the theory that if prices go down, farmers will be influenced to plant less wheat and cotton. This would automatically use up the surplus. With a reduced supply on hand, the price would go up again in the next year and the situation would be automatically corrected.

This solution has two drawbacks. One is that the farmers would suffer a severe loss of income in the low-price year. The other is that a lowered price might influence farmers to plant still larger crops.

Increasing Planting

In following this course, the farmer would simply be reasoning that with his profit per bushel cut in half, he could make his normal income by planting a crop twice as large. The fallacy of this is that the doubled planting would tend to make the surpluses still bigger, and force prices still lower.

This actually happened back in 1932.

As opposed to these no-action policies of letting supply and demand correct their own abuses in a free market, there is a very definite program of controls which Secretary Benson might invoke under present law.

This would call for an election of all wheat and cotton farmers, to determine whether they would favor imposition of acreage limitations and marketing quota controls.

Under this program, every one of the two million wheat farmers and the one million cotton farmers would be entitled to a vote. If two-thirds of all the farmers planting either crop voted in favor of acreage limitations, the quotas would be applied to that crop. The Secretary of Agriculture could then set national quotas.

If more than one-third of the farmers voted against controls, they could not be imposed. In this case, the support price level would be dropped automatically to 50 per cent of parity.

Some experts believe that if this were allowed to happen, it would break the back of the entire farm-price-support system. In any event, it would give Congress a tremendous problem to decide next year.

Future Supports Are Problem

Present legislation calls for a support price of 90 per cent of parity on basic farm crops through 1954. If the farmers vote for acreage limitations and marketing quotas, the 90 per cent of parity support price on wheat and cotton would remain in effect while the controls were on.

The problem for Congress, however, would be what to do about support levels for 1955 and beyond. The alternatives are to end the support-price system, to keep the present fixed 90 per cent level, to raise it to 100, or to let it revert to a sliding scale between 75 and 90 per cent of parity.

Secretary Benson doesn't have long to make up his mind on these matters. He must decide by July 1 whether to ask for an election of wheat farmers on imposing a quota on the 1954 crop. He will probably wait until after the June 10 estimate of the 1953 crop before deciding. The election must be completed before winter wheat planting is begun.

On cotton, the decision on whether to call for an election must be made in November and the election must be held in December.

Two precautionary measures have already been taken in preparation for a possible call for farmer elections. Production Marketing Administration committeemen are already at work in the field, collecting records on acreages and yields so as to have a historical basis on which quotas might be based, if voted for. The Department of Agriculture has asked Congress for authority to use $4.5 million to conduct elections if they become necessary.

Use of quota controls hasn't been ruled out, at any rate.

Rhee Sought Privilege of Making Statement to Enemy Through United States

By DAVID LAWRENCE

Washington, June 11—The facts about the tragedy of Korea are slowly coming to light. For some strange reason, the White House has failed to make public the letter from President Rhee dated May 30 to which President Eisenhower replied on June 7.

In that letter from Mr. Rhee, it becomes evident that the Republic of Korea—which is not a member of the UN—asked for the simple privilege of making a proposal to the enemy through the United States. The Korean president wrote:

"Whatever academic arguments there may be against it, we cannot but feel that rough and rudimental justice calls for Korea to make one first and last proposal on its own part."

Then the Korean president declared that "any armistice arrangement which would allow the Chinese Communists to remain in Korea would mean to the Korean nation, in terms of eventualities, an acceptance of a death sentence without protest." Mr. Rhee added that, even if he personally were to agree to such an arrangement, "it will not help the matter very much, as subsequent developments, I fear, will show."

The main points of the Rhee proposal have been revealed in the last few days and constitute principally a request that before the armistice the United States agree to a mutual-defense pact with Korea. But the text itself is significant. Mr. Rhee wanted the defense pact worded this way:

"The United States will agree to come to our military aid and assistance immediately without any consultation or conference with any nation or nations, if and when the enemy nation or nations resume aggressive activities against the Korean peninsula."

But President Eisenhower pledged that he would send the type of treaty to Congress which would call for aid only "in accordance with constitutional processes." Yet President Truman intervened in Korea immediately to "repel aggression" and at no time either during the presidential campaign or thereafter has Mr. Eisenhower declared that ratification of a state of war by Congress was necessary. Naturally that's the kind of guarantee the Korean republic wants now, because it would mean instantaneous protection and not a palavering in Congress until long after invading armies had swept southern Korea.

Mr. Rhee also asked that there be submitted to the enemy now a proposal that Communist Chinese troops as well as United Nations troops be withdrawn, presumably during the armistice period. This was not referred to at all by President Eisenhower in his reply to President Rhee and has perhaps not even been transmitted to the enemy.

The Korean concept is that in June 1950 the armies of only one aggressor — the puppet government of North Korea—stood on the 38th Parallel. That army was beaten. But in its place another aggressor now stands on the battle line—Red China, with 700,000 troops—which constitutes a dangerous threat to the safety of the Korean Republic.

"The Communist puppet regime in North Korea," says Mr. Rhee, "has a military pact, I understand, with Red China, while the latter has another with the Soviet Union. Korea has nothing to counteract the formidable impact of this series of Communist military copulations."

If the Republic of Korea were a member of the UN, it might choose to rely on that organization, but it is not. It is inconceivable that, as has been suggested impatiently in some quarters, pressure be brought to bear on President Rhee and the Korean armies by withholding ammunition and supplies. One reason why this would appear to be a deplorable course is that President Eisenhower in his Minneapolis speech has just said:

"We cannot select those areas of the globe in which our policies or wishes may differ from our allies — build p o l i t c a l fences around these areas—and say to our allies: 'We shall do what we want here—and where you do what we want, there and only there shall we favor unity.' That is not unity. It is dictation. And it is not the way free men associate."

If the doctrine of dictation is to apply to the Republic of Korea—which has lost more than 1,000,000 persons in dead and wounded during the war—then it can only mean the prolonged presence of American troops on Korean soil to police Korean armies and coerce them into doing what the government of Great Britain wants done. P r i m e Minister Churchill is profuse in his applause for the recent action of the American president. This correspondent has learned that many personal messages from the British prime minister influenced Mr. Eisenhower to decide to ignore the wishes of South Korea and to bow instead to the wishes of Great Britain.

Poor Korea, ravaged by war, stands deserted, not exactly in the interest of "allied unity"—for she is an ally, too—but in deference to a political expediency in London and Washington that time will prove was mistaken.

AS PEGLER SEES IT

By WESTBROOK PEGLER

This is to abandon Laurence R. Feetham's illusion that the old cavalry carbine which was given to his father by Dr. H. M. Wheeler, of Grand Forks, N. D., was the one with which Doctor Wheelerer killed William Stiles, of the Jesse James gang, in the Northfield, Minn., bank robbery of Sept. 7, 1876, and to modify in minor particulars a story which is nevertheless a nugget of crude American history.

The Grand Forks Herald interviewed Mrs. Wheeler, who said Doctor Wheeler's gun was still in the family there. Mr. Feetham, now living in Seattle, politely bows to her as follows: "Let us accept the fact that the doctor's family should know about 'the gun.'"

The Herald published a picture of Henry Wheeler, apparently a young man, holding a carbine, with the late doctor's fabulous four-gauge shotgun, which looks like a gas-pipe mounted on a stock, standing beside him. Mrs. Wheeler said the carbine which Doctor Wheeler fired was carried by Charles Dampier, the hotel-keeper in Northfield, from 1861 to 1865 in the Union cavalry and that it was given to the Wheeler family when Mr. Dampier died. The gun that Wheeler gave the elder Feetham, now treasured by Laurence Feetham, probably is just another old cavalry carbine.

A large correspondence flowed out of the controversial memories of individuals scattered from Southern Pines, N. C., to Seattle and Las Vegas, Nev. The pure gold of all this is a legend that Wheeler, a poor young man studying medicine at the University of Michigan, showed up for his dissection course in the fall of 1876 with a cadaver all his own to work upon. These articles cost about $200 and when Wheeler nonchalantly remarked to a group of other students that he thought he would go and get in some work at this course, several of them exclaimed: "Did you get one? Where did you get him?"

Young Wheeler said: "I shot him," and was called upon to amplify his grisly account to the dean.

Mrs. Wheeler, as quoted in the Grand Forks Herald, recalled that her late husband and a son of Dampier both were studying medicine at Ann Arbor, and that the boys asked for the two cadavers left behind by the James gang.

"They were told," says the Herald, "that the bodies could not be given away but that they would not be buried very deep. They took up the bodies and shipped them to Ann Arbor."

The one killed by Wheeler was Clell Miller, whose family now went to Ann Arbor and took his body away. However, young Wheeler managed to keep the body of William Stiles, who, it appears from Mrs. Wheeler's memory of things, was shot by A. R. Manning, the man who ran the Northfield Hardware store. The Herald's account says Stiles' skeleton was on view in Doctor Wheeler's office until it was destroyed by fire at some date not specified. Apparently young Dampier was out of luck in the shuffle.

Doctor Wheeler had permission to carry a gun for some years after the raid because members of the Miller family had threatened to shoot him.

H. C. Hoffman, of Trail's End Ranch, Oxford, Ohio, said he and Jesse James, Jr., visited Cole Younger, one of three brothers who rode in this and other raids, as he lay dying at Lee's Summit, Mo., in 1916. He and Jesse, junior, bore Younger's pall. Mr. Hoffman writes that Younger gave him the gun he was carrying when he was captured at Madelia, Minn., 14 days after the raid. Hoffman gave this gun and other relics of the same chase to the State of Missouri in 1938 and they are now on exhibit in the State House at Jefferson City.

Mr. Hoffman says Stiles, alias Chadwell, lost his head and ran down an alley instead of mounting his horse for the getaway.

In this brief lapse he exposed himself to Wheeler's fire and was killed.

On the point of my observation that the James gang were rotten marksmen, based on the fact that they banged away regardless and killed only two unfortunates who were sitting ducks, Mr. Hoffman said the James boys and the Youngers "were recognized by oldtime experts as having no peers in the use of a six-gun."

Cole Younger told him, "we did not want to hit anyone. However, it was impossible to avoid hitting the cashier at the moment, it was kill or be killed." He points out that the gang fired 30 times at Mr. Manning, the hardware man, without even wounding him, the implication being that they didn't want to kill anyone unnecessarily.

To the contrary, we have an oration by Harry B. Hawes, former senator from Missouri, to

Says Atomic Supply Is 'Very Adequate'

Washington, June 11 (AP)—Sen. Hickenlooper (R.-Iowa) said today the United States has a "very substantial supply of atomic weapons" and is turning out more at an increased rate.

He made the statement in disputing a contention by Rep. Price (D.-Ill.) that the supply of atomic weapons "is dangerously inadequate, both as to quantity and variety."

Both are members of the Senate-House Atomic Energy Committee.

Price, in a House speech yesterday, said "military (atomic) needs have not, nor will they in the near future, be fulfilled."

Hickenlooper said in an interview the question of an adequate supply of weapons "depends on whether you want them immediately" or whether they are to be produced "in a reasonable manner."

He said the present supply is "very adequate" and added "we are making excellent progress" in the atomic program.

Michigan Tornado Damage $2,325,100

Flint, Mich., June 11 (AP)—Damage from the tornado which devastated an area on the northern outskirts of this city was estimated at $2,325,100 today.

Edward R. Kapp, Jr., county Red Cross disaster chairman here, announced the estimate was reached by a survey committee of Flint realtors.

The estimate included the value of 291 demolished houses, major damage at 66 houses and minor damage to 93 houses.

Meanwhile, the living residents of the 7-mile by 7-block stricken area take time out from their job of grimly digging into the debris to prepare to bury the 112 dead.

More men are doing the food shopping and are partly responsible for the increase in cheese consumption in recent years.

Per capita production of electricity in Sweden is about the same as that in the United States.

Generally Fair Weather Today

(By The Associated Press)

Generally fair and mild weather—in sharp contrast to violent storms in some sections earlier this week—was the outlook for most of the nation today.

No stormy weather was reported throughout the country early today. There was light rain in Montana, southern New Mexico and along the south Atlantic coast. But clear skies prevailed in the Great Lakes region, the southern great plains and in the far southwest.

Tornadoes which struck earlier this week in Michigan, Ohio and Massachusetts killed at least 225 persons and injured some 1,800 others. Violent thunderstorms also had hit wide areas of the country.

Boy's Death Was Due To Natural Causes

Athens, June 11 (AP)—Coroner Alton B. Daley says there was "no evidence of homicide, suicide, injury or foul play" in the death of Norman Starke, 8.

The boy's nude body was found May 29 in a swimming hole a mile from his home in this Greene county community. His parents, Mr. and Mrs. Charles Starke, demanded a full investigation.

The coroner's verdict yesterday was "death due to natural causes" resulting from fright and contact with cold water.

He gave no theory as to how the boy happened to be in the water. There was no water in the boy's lungs, an autopsy showed.

Norman's parents said he could not swim and was afraid of the water.

On hearing the coroner's verdict, Mrs. Starke told a reporter there still were unanswered questions.

Michigan Tornado Damage $2,325,100

Flint, Mich., June 11 (AP)—Damage from the tornado which devastated an area on the northern outskirts of this city was estimated at $2,325,100 today.

Edward R. Kapp, Jr., county Red Cross disaster chairman here, announced the estimate was reached by a survey committee of Flint realtors.

The estimate included the value of 291 demolished houses, major damage at 66 houses and minor damage to 93 houses.

Meanwhile, the living residents of the 7-mile by 7-block stricken area take time out from their job of grimly digging into the debris to prepare to bury the 112 dead.

More men are doing the food shopping and are partly responsible for the increase in cheese consumption in recent years.

Per capita production of electricity in Sweden is about the same as that in the United States.

New Haven, Conn., June 11 (AP) —A Mount Vernon, N. Y., heating contractor filed a $10,000 damage suit in U. S. District Court yesterday for injuries allegedly suffered in a fall on some children's marbles in a Greenwich school.

John R. Farnell, 52, claims the Greenwich Academy failed to warn him on June 12, 1952, that some kindergarten pupils had left marbles on the basement floor.

In his suit against Greenwich Academy Parents, Inc., Farnell claims his injuries left him with a limp.

After a week, at a hotel, of tipping doormen, bellboys, waiters, hat-check girls, ad infinitum, a traveler was completely fed up with the whole system. Then came a knock on his door.

Guest—Who is it?

Voice—The bellboy, sir. Telegram for you.

A crafty gleam came into the eyes of the tip-tortured guest.

Guest—Just slip it under the door.

Barely a moment's hesitation, then,

Bellboy—I can't sir.

Guest—And why not?

Bellboy—Because, sir, it's on a tray.

He drove his car with extreme care. The speed limit was 15 miles per hour, and he obeyed it. When he approached a corner he slowed down, shifted, and turned cautiously. He never argued with a cab driver at the crossings. He didn't jump the light before it turned green. He even let old women and children cross in plenty of time. He had a flat tire.

A bride went to the butcher shop to buy a ham.

Butcher—Here are some fresh smoked cured ones.

Bride—But haven't you any that have never been sick.

Son—I'm proud of you, father. If it hadn't been for your pluck and perseverance, I might have had to do something of that sort myself.

Visiting Parson—(to little boy) If your mother gave you a big apple and a little apple and told you to give one to your brother, which would you give him?

NET RESULTS ARE GOOD—A plane-and-pilot saver might well be the name for this device which has been developed by the Far East Air Force's 6400th Maintenance group. The net stops fast-landing damaged jet aircraft and enables them to land on small emergency strips near the fighting front. In the top photo, the nose wheel of the plane touches a line which triggers the main arresting gear (bottom photo) which engages the main landing gear and brings the plane to an easy halt. The net, similar to those used on aircraft carriers, cost $14,000 and has already saved 10 jet planes worth $240,000 each and possibly the lives of 10 airmen.

Five Nations . . .

government at Bern began reconsidering its position and today the situation was this:

Sweden—Ambassador Erik Boheman delivered to the State Department late yesterday a note stating that Sweden "has decided to accept to serve."

India—Prime Minister Nehru was quoted in news dispatches as saying India was ready to serve but would have to reconsider if South Korean troops pulled out of the UN command. U. S. officials considered that India, which is slated to head the commission, will undoubtedly serve.

Switzerland — Foreign Minister Max Petitpierre said at Bern his country "could be induced" to take part in order to avoid delaying an armistice. This seemed to cancel the previous announcement that Switzerland must be counted out unless the South Koreans fell in line.

Poland and Czechoslovakia — These two Communist nations are likely to accept. It is assumed here that if there had been any question about their willingness to do so the Reds would never have nominated them.

The task of the commission will be to supervise prisoners of war who have declared they would not go home, during a period of months when Red representatives will try to induce them to go home. Those who consistently refuse will eventually be set free.

Wood Seized . . .

their families with shotguns, and keeping them indoors.

The fact that Wood was caught only four miles from the hospital increased hope of the posse that the other two escapees also would be taken.

The searchers used bloodhounds and walkie-talkie sets as they worked through the countryside, spotted with swampy land and dense woods. The posses included state troopers, deputies sheriff, prison and Matteawan Hospital guards, and specially deputized woodsmen. New York city police sent a helicopter, which flew over this section yesterday.

The widespread search was concentrated in this area after the three fugitives were seen Tuesday night fleeing into a swampy woodland called Charlotte's Grove.

NET RESULTS ARE GOOD—A plane-and-pilot saver might well be the name for this device which has been developed by the Far East Air Force's 6400th Maintenance group. The net stops fast-landing damaged jet aircraft and enables them to land on small emergency strips near the fighting front. In the top photo, the nose wheel of the plane touches a line which triggers the main arresting gear (bottom photo) which engages the main landing gear and brings the plane to an easy halt. The net, similar to those used on aircraft carriers, cost $14,000 and has already saved 10 jet planes worth $240,000 each and possibly the lives of 10 airmen.

Five Nations . . .

government at Bern began reconsidering its position and today the situation was this:

Sweden—Ambassador Erik Boheman delivered to the State Department late yesterday a note stating that Sweden "has decided to accept to serve."

India—Prime Minister Nehru was quoted in news dispatches as saying India was ready to serve but would have to reconsider if South Korean troops pulled out of the UN command. U. S. officials considered that India, which is slated to head the commission, will undoubtedly serve.

Switzerland — Foreign Minister Max Petitpierre said at Bern his country "could be induced" to take part in order to avoid delaying an armistice. This seemed to cancel the previous announcement that Switzerland must be counted out unless the South Koreans fell in line.

Poland and Czechoslovakia — These two Communist nations are likely to accept. It is assumed here that if there had been any question about their willingness to do so the Reds would never have nominated them.

The task of the commission will be to supervise prisoners of war who have declared they would not go home, during a period of months when Red representatives will try to induce them to go home. Those who consistently refuse will eventually be set free.

Wood Seized . . .

their families with shotguns, and keeping them indoors.

The fact that Wood was caught only four miles from the hospital increased hope of the posse that the other two escapees also would be taken.

The searchers used bloodhounds and walkie-talkie sets as they worked through the countryside, spotted with swampy land and dense woods. The posses included state troopers, deputies sheriff, prison and Matteawan Hospital guards, and specially deputized woodsmen. New York city police sent a helicopter, which flew over this section yesterday.

The widespread search was concentrated in this area after the three fugitives were seen Tuesday night fleeing into a swampy woodland called Charlotte's Grove.

SHOKAN NEWS

Shokan, June 11—John W. Grob, who succeeds the late Rev. Milton H. Ryan as pastor of the Ashokan charge, has arrived in the lower village and is occupying the parsonage with his mother, Mrs. A. Grob. The young man, who will enter Drew Theological Seminary in the fall and continue to fill the three local pulpits on Sundays, comes from Pocahontas in southern Illinois. He is a graduate of McKendree College, Lebanon, Ill., and his mother is on vacation from her duties as a school teacher in Pocahontas.

The community was saddened by news of the death in Kingston, Wednesday, of Mrs. John McGovern, who was held in high esteem here. Mrs. McGovern and her husband came to Shokan several years ago from Phoenicia after buying the L. Scott house along the Onteora Trail.

Callers in the village center Sunday included Mr. and Mrs. Harrison Gridley, Shady, and Mr. and Mrs. L. Sable of Kingston. Calling here Friday were Fred Roosa, Kyserike, and Carl Stein of Shandaken. Stein is employed as a chef in Kingston and he also operates a summer boarding house above Phoenicia.

Echoes of the Gay Nineties: In early June, 50 and more years ago, the men of the mountain, or Coons District, of Shokan, liked to come down to spear eels and catch huge sucker's which used to lie in the deeper holes in the upper Esopus Creek. Four such fishermen in the spring of '95 were Henry Coons, Abram and William Bogart and John Warren. Abram Bogart and Coons were father and grandfather, respectively, of Mrs. Rupert Everett (Goldie Bogart) of Kingston, and the two with John resided in what is now the E. C. Bostock summer home. William Bogart, whose farm was the present W. Vanderbent place, was father of Mrs. Arthur Carter and grandfather of Mrs. James Bush. Both Bogart brothers were drummers in the famed Sheepskin Band, a fife and drum corps organized in 1876.

Foxes whether rabid or not, can be pretty mean critters betimes, as the recent experience of Sarah Dutton of Preston Hollow, Greene county, attests. Mrs. Preston, attacked by Reynard in the backyard of her home, laid the animal low with a lusty swing of her scrub bucket and then yelled to her neighbor who finished the fox off with a shotgun charge. And yet there are men who say that women drivers can't "think quick."

Shokan, June 9—Augustine Lopez, New York resident who many years ago was a frequent caller at the B. Nadal farmhouse on the mountain, was in Shokan Saturday. He is the father of Mrs. Charles Chlandra, who as Carmen Lopez resided here as a girl.

Out of town people stopping in the hub of the reservoir country Saturday included Mr. and Mrs. John McCay, residents of the Wisner avenue section of Newburgh. The couple were accompanied by Mrs. McKay's brother, John L. Balnave of Glasgow, Scotland, who was paying his first visit to this country.

Elaine Quick, a student at the Moran-Spencerian Business School, spent the weekend with relatives in the Town of Rochester.

Shokan residents, who have had no centenarians in their midst since the death of Solomon Crispell many decades ago, can take a vicarious pleasure in the longevity of Mehetabel Tubbs, of neighboring Greene county, whose 104th birthday falls June 9. The aged woman, who lives with her daughter-in-law, Mrs. William Tubbs, in Catskill, still has a hearty appetite, reads without glasses and maintains a keen interest in current happenings.

Mrs. Michael Jackman spent an hour in the village center Sunday while en route from her native Olive Bridge to New York. Mrs. Jackman, sister of Oliver Crawford, is building a summer home on the family acres along the Krumville road, near the 150-year-old stone house where she was born and brought up.

Why We Say--

. . . Tennis term

We use the word "love" to mean zero in a tennis match. The term comes from the French word "l'oeuf" meaning egg or zero. When tennis came from France to England the term was introduced but spelled 'love.'

Men Behind Ike —Specialists

(Here's a man who's a slow shaver, so he has to get up at 6:30 a. m. to do his job as one of President Eisenhower's top aides. Here's another who keeps one book on his desk—the Bible, and finds time in his busy day to read it. Here's a third who has been active in a dozen civic enterprises at a time, but now will hardly give you the time of day. His job is security, and it's secure with him. Sigrid Arne of AP Newsfeatures tells about this trio in this third article of four about the men behind Ike.)

By SIGRID ARNE
AP Newsfeatures Writer

Washington, June 11 (AP) — There's nothing in Roger Steffan's smile to tell you that, but for one thing, he'd be relaxing on a California fruit ranch today. That thing was President Eisenhower's election.

So instead of going into retirement, he became business manager of the White House offices, and one of Ike's top aides.

Until last year he was vice president of one of the biggest banks in the country — New York's National City Bank. For 17 years he has been preparing the perfect retirement spot, his exotic ranch. He planned to quit last year. Then he was tapped for the White House staff.

"So here I am, over 60, with a new job," he says, his eyes twinkling. "I'm not sure it's a promotion. I have to get here at 8 a. m.—and I'm a slow shaver. That means I have to get up now at the same hour I did on my first job—6:30 a. m.—when I helped my father in his grocery store at Osborn, Ohio."

Arrived Ahead of Time

Steffan arrived at the White House two weeks before the inauguration to get straight just what stenographers, clerks, receptionists, specialists and policemen would be on his payroll. He wanted to see how he could cut the cost of operating the White House. President Eisenhower is looking at costs so carefully that he has laid up the presidential yacht Williamsburg.

Ruefully, Steffan says "so far we haven't cut much of the costs. We have cut some in the correspondence division. We're getting along with fewer people even though the mail jumped 145 per cent when President Eisenhower took office and he wants every letter answered within 36 hours. We did it by cutting the length of the answers we send out."

Steffan says he kept key people in the lower ranks—receptionists, secretaries, seasoned filing clerks —because "we had to be sure of a smooth turnover."

Steffan was a Phi Beta Kappa at Ohio State University, an infantry lieutenant in World War 1 and a newspaperman before he went into banking.

Economist Has Office

Not far from Steffan's office in the old State Department building, just across West Executive avenue from the White House, is the office of the only professional economist on President Eisenhower's team. His name is Gabriel Hauge (pronounced how-gie).

Like Steffan, Hauge is one of those White House workers you seldom hear about but who does a lot of important work. He's 39, a big calm man who looks like he might be a navy officer in civvies—which is about what he is. He spent four years on battleships in the Pacific in World War 2.

Hauge has one book—a Bible—displayed prominently on his desk. He explains "there are always minutes during the day I can take time to read."

He adds proudly "my father is a Lutheran minister at Hawley, Minn., where I was born. He has had that pastorate for 52 years. It's probably the longest record of its kind in the country.

"We're Norwegian stock. Like most Scandinavian parents, father kept repeating one rule of life to us. It was 'Trust in God. Earn your bread. Respect your government.'"

Says Job Is Challenge

Hauge finds his job challenging.

"My duty is to find all the facts on any economic subject with which the President must deal," he explains.

"I must brief that—to one page if possible—to save the President's time."

Hauge sees the President personally only when some economic subject becomes top policy. Otherwise he gets his instructions and gives his advice to the 8:30 a. m. conference of the White House staff.

Hauge has a doctorate from Harvard; has been Minnesota state budget examiner, statistician for the New York Federal Reserve Bank, chief researcher for the New York State Banking Department, editor of "Business Week" and an executive of the McGraw-Hill Publishing Co. He is married and has two daughters and a son.

A third "faceless" White House worker is Robert Cutler, the President's assistant on national security.

'Cold War' Reports

Cutler's duty is to pull together all the work going on in the "cold war," whether it is a trend in "Voice of America" programs or a hush-hush project by the armed forces. He refuses to discuss any of it.

A tall, slightly stooped Boston bachelor of 57, he has dark eyes, dark hair and a testy, solemn manner. The story around the White House is that he relaxes by bicycling, but he won't even talk about that.

He is a banker and says "I've been in the public eye enough. Now I have a position of personal trust to the President. There is nothing to say. My job involves the safety of the nation."

He is on leave as president and director of the Old Colony Trust Co., of Boston.

When he took the White House job he had to drop volunteer posts as director or trustee of 12 different civic agencies.

"I just want to get this job done and get back to work for the Peter Brigham Hospital in Boston," he'll tell you. "What's that? Of course it's volunteer work."

SHOKAN NEWS

Shokan, June 11—John W. Grob, who succeeds the late Rev. Milton H. Ryan as pastor of the Ashokan charge, has arrived in the lower village and is occupying the parsonage with his mother, Mrs. A. Grob. The young man, who will enter Drew Theological Seminary in the fall and continue to fill the three local pulpits on Sundays, comes from Pocahontas in southern Illinois. He is a graduate of McKendree College, Lebanon, Ill., and his mother is on vacation from her duties as a school teacher in Pocahontas.

The community was saddened by news of the death in Kingston, Wednesday, of Mrs. John McGovern, who was held in high esteem here. Mrs. McGovern and her husband came to Shokan several years ago from Phoenicia after buying the L. Scott house along the Onteora Trail.

Callers in the village center Sunday included Mr. and Mrs. Harrison Gridley, Shady, and Mr. and Mrs. L. Sable of Kingston. Calling here Friday were Fred Roosa, Kyserike, and Carl Stein of Shandaken. Stein is employed as a chef in Kingston and he also operates a summer boarding house above Phoenicia.

Echoes of the Gay Nineties: In early June, 50 and more years ago, the men of the mountain, or Coons District, of Shokan, liked to come down to spear eels and catch huge suckers which used to lie in the deeper holes in the upper Esopus Creek. Four such fishermen in the spring of '95 were Henry Coons, Abram and William Bogart and John Warren. Abram Bogart and Coons were father and grandfather, respectively, of Mrs. Rupert Everett (Goldie Bogart) of Kingston, and the two with John resided in what is now the E. C. Bostock summer home. William Bogart, whose farm was the present W. Vanderbent place, was father of Mrs. Arthur Carter and grandfather of Mrs. James Bush. Both Bogart brothers were drummers in the famed Sheepskin Band, a fife and drum corps organized in 1876.

Foxes whether rabid or not, can be pretty mean critters betimes, as the recent experience of Sarah Dutton of Preston Hollow, Greene county, attests. Mrs. Preston, attacked by Reynard in the backyard of her home, laid the animal low with a lusty swing of her scrub bucket and then yelled to her neighbor who finished the fox off with a shotgun charge. And yet there are men who say that women drivers can't "think quick."

Shokan, June 9—Augustine Lopez, New York resident who many years ago was a frequent caller at the B. Nadal farmhouse on the mountain, was in Shokan Saturday. He is the father of Mrs. Charles Chlandra, who as Carmen Lopez resided here as a girl.

Out of town people stopping in the hub of the reservoir country Saturday included Mr. and Mrs. John McCay, residents of the Wisner avenue section of Newburgh. The couple were accompanied by Mrs. McKay's brother, John L. Balnave of Glasgow, Scotland, who was paying his first visit to this country.

Elaine Quick, a student at the Moran-Spencerian Business School, spent the weekend with relatives in the Town of Rochester.

Shokan residents, who have had no centenarians in their midst since the death of Solomon Crispell many decades ago, can take a vicarious pleasure in the longevity of Mehetabel Tubbs, of neighboring Greene county, whose 104th birthday falls June 9. The aged woman, who lives with her daughter-in-law, Mrs. William Tubbs, in Catskill, still has a hearty appetite, reads without glasses and maintains a keen interest in current happenings.

Mrs. Michael Jackman spent an hour in the village center Sunday while en route from her native Olive Bridges to New York. Mrs. Jackman, sister of Oliver Crawford, is building a summer home on the family acres along the Krumville road, near the 150-year-old stone house where she was born and brought up.

We use the word "love" to mean zero in a tennis match. The term comes from the French word "l'oeuf" meaning egg or zero. When tennis came from France to England the term was introduced but spelled 'love.'

Men Behind Ike —Specialists

(Here's a man who's a slow shaver, so he has to get up at 6:30 a. m. to do his job as one of President Eisenhower's top aides. Here's another who keeps one book on his desk—the Bible, and finds time in his busy day to read it. Here's a third who has been active in a dozen civic enterprises at a time, but now will hardly give you the time of day. His job is security, and it's secure with him. Sigrid Arne of AP Newsfeatures tells about this trio in this third article of four about the men behind Ike.)

By SIGRID ARNE
AP Newsfeatures Writer

Washington, June 11 (AP) — There's nothing in Roger Steffan's smile to tell you that, but for one thing, he'd be relaxing on a California fruit ranch today. That thing was President Eisenhower's election.

So instead of going into retirement, he became business manager of the White House offices, and one of Ike's top aides.

Until last year he was vice president of one of the biggest banks in the country — New York's National City Bank. For 17 years he has been preparing the perfect retirement spot, his exotic ranch. He planned to quit last year. Then he was tapped for the White House staff.

"So here I am, over 60, with a new job," he says, his eyes twinkling. "I'm not sure it's a promotion. I have to get here at 8 a. m.—and I'm a slow shaver. That means I have to get up now at the same hour I did on my first job—6:30 a. m.—when I helped my father in his grocery store at Osborn, Ohio."

Arrived Ahead of Time

Steffan arrived at the White House two weeks before the inauguration to get straight just what stenographers, clerks, receptionists, specialists and policemen would be on his payroll. He wanted to see how he could cut the cost of operating the White House. President Eisenhower is looking at costs so carefully that he has laid up the presidential yacht Williamsburg.

Ruefully, Steffan says "so far we haven't cut much of the costs. We have cut some in the correspondence division. We're getting along with fewer people even though the mail jumped 145 per cent when President Eisenhower took office and he wants every letter answered within 36 hours. We did it by cutting the length of the answers we send out."

Steffan says he kept key people in the lower ranks—receptionists, secretaries, seasoned filing clerks—because "we had to be sure of a smooth turnover."

Steffan was a Phi Beta Kappa at Ohio State University, an infantry lieutenant in World War 1 and a newspaperman before he went into banking.

Economist Has Office

Not far from Steffan's office in the old State Department building, just across West Executive avenue from the White House, is the office of the only professional economist on President Eisenhower's team. His name is Gabriel Hauge (pronounced how-gie).

Like Steffan, Hauge is one of those White House workers you seldom hear about but who does a lot of important work. He's 39, a big calm man who looks like he might be a navy officer in civvies—which is about what he is. He spent four years on battleships in the Pacific in World War 2.

Hauge has one book—a Bible—displayed prominently on his desk. He explains "there are always minutes during the day I can take time to read."

He adds proudly "my father is a Lutheran minister at Hawley, Minn., where I was born. He has had that pastorate for 52 years. It's probably the longest record of its kind in the country.

"We're Norwegian stock. Like most Scandinavian parents, father kept repeating one rule of life to us. It was 'Trust in God. Earn your bread. Respect your government.'"

Says Job Is Challenge

Hauge finds his job challenging. "My duty is to find all the facts on any economic subject with which the President must deal," he explains.

"I must brief that—to one page if possible—to save the President's time."

Hauge sees the President personally only when some economic subject becomes top policy. Otherwise he gets his instructions and gives his advice to the 8:30 a. m. conference of the White House staff.

Hauge has a doctorate from Harvard; has been Minnesota state budget examiner, statistician for the New York Federal Reserve Bank, chief researcher for the New York State Banking Department, editor of "Business Week" and an executive of the McGraw-Hill Publishing Co. He is married and has two daughters and a son.

A third "faceless" White House worker is Robert Cutler, the President's assistant on national security.

'Cold War' Reports

Cutler's duty is to pull together all the work going on in the "cold war," whether it is a trend in "Voice of America" programs or a hush-hush project by the armed forces. He refuses to discuss any of it.

A tall, slightly stooped Boston bachelor of 57, he has dark eyes, dark hair and a testy, solemn manner. The story around the White House is that he relaxes by bicycling, but he won't even talk about that.

He is a banker and says "I've been in the public eye enough. Now I have a position of personal trust to the President. There is nothing to say. My job involves the safety of the nation."

He is on leave as president and director of the Old Colony Trust Co., of Boston.

When he took the White House job he had to drop volunteer posts as director or trustee of 12 different civic agencies.

"I just want to get this job done and get back to work for the Peter Brigham Hospital in Boston," he'll tell you. "What's that? Of course it's volunteer work."

Band Festival

The annual band festival was held in the Wallkill Central School auditorium Wednesday afternoon, June 3,. The climax of the afternoon's activities came with an assembly program presented by the Wallkill Central School Band and a massed band of 75 instrumental students from grades 4, 5, and 6.

The massed Grade School Band was a culmination of earlier performances by the Plattekill Grade School Band under the direction of Miss Elaine Kniffen, the Wallkill Beginners Band and the Wallkill Junior Band directed by William Topping. The program presented by this band and directed by Miss Kniffen and Mr. Topping, was as follows: "Evening Song," a Serenade, "By the River," Reverie, "Summer Skies," Waltz, "On the Lake," Waltz, and "Stepping Along," a march.

This band constituted the largest instrumental group ever assembled on the Wallkill stage. Although the program was unrehearsed, it was aptly performed and presented a fitting climax to the instrumental program in the Wallkill Central School's elementary department.

The assembly was concluded with selections by the Wallkill High School Band under the direction of William Topping, which played: "Our Director" a march by Bigelow, "Hymn to Brotherhood," by Beethoven, "Waves of the Danube" by Ivanocci, "Teddy Bears Picnic" by Bratton, "Schnitzelbank," by Yodez, and "High School Cadets March" by Sousa.

The Play Day was under the direction of Physical Education Department of the Central School. Vincent DeAngelis and Charles Neff supervised the activities of the fifth and sixth grades held in Wallkill and Mrs. H. Birdsall supervised the activities of the fourth grades which were held in Plattekill. These staff members were assisted by numerous high school students who served as umpires.

Future Farmers Father and Son Annual Banquet

Wallkill, June 10—The annual father and son banquet of the Wallkill Future Farmers Association was held May 27 in the Wallkill Central School cafeteria with Roy Denniston, the president, as toastmaster. The banquet was served by the Junior FFA of the school, and the blessing was asked by Vice-President John Garrison.

Several reports were given by members of the club. John Garrison told about the work of the county FFA Association. Edward Niddrie spoke on county fair activities. Edwin Nelson reported on his trip to the State Fair. Finally Robert Murphy told about his adventures at the FFA Leadership Training Camp.

The people were entertained by a quartet of FFA boys, Bobby Campbell, Donald Johnson, John Hoppenstedt and Ralph Jenkins. Mr. Gardiner and Bob Campbell also played a few numbers on the harmonica and guitar.

The Honorary Farmer Award was presented to George Crist, for his cooperation in the Tractor Maintenance School, by Ralph Jenkins. Mr. Gardiner presented the Green Hand Degree pins to Vernon Alford, Neil Terwilliger, Kenneth Cronk, John Hecht, Robert Holmes, Harold Rogers, John Romaine, Arnold Wager and Ronald Wager.

Future Farmer of America Foundation Awards were presented to the following boys: Farm Mechanics Award to John Hoppenstedt, State Farmer Award to Bob Hecht, Dairy Award to Rodney Gregg and Soil and Water Conservation Award to Edwin Nelson.

Edwin Nelson won the Dekalb Award, which is presented to the outstanding senior each year for excellence in scholarship and project work.

The program and dinner was concluded with a brief talk on father and son partnerships by John D. Gardiner.

Mr. and Mrs. Emmet Conklin have returned home from Montreal, Canada after visiting with their sons and families, Mr. and Mrs. Harold Conklin, and Mr. and Mrs. Hanford Conklin.

Mrs. Mary Dunham of New York city returned to her home on Sunday after a week's vacation with her sister and husband, Mr. and Mrs. Claude L. Decker. She also visited with her brother and his wife, Mr. and Mrs. Seth Lippencott.

Cub Scout Pack

Outstanding exhibits in correlation with the theme Mother Nature were displayed at a meeting of Wallkill's Cub Scout Pack 76 Tuesday evening in the Wallkill National Bank Community rooms.

On display were many varieties of plants and animals. Among the latter were bantam chickens, baby kittens, a rabbit, a frog, turtles and tadpoles. A nature program was given by Den Seven of which Mrs. Charles W. Beattie is den mother. Each member read a report which he had written on a certain type of bird or topic related to nature. Cubs in this den include Peter Burmeister, Ian and Peter VanderEssen, Charles Beatty, Preston Witherel, and Peter Sowa.

Included in the program was the playing of a record of bird calls. This disc is one of a series which has a recording of the call of every bird in the United States.

Jonathan Wilkin was awarded a Den Chief's cord for his service to Den Five. Seven cubs received awards: Reed Wickner was present with a denner's stripe, John Almack a wolf badge and David Myers, four silver arrows. The boys who each earned a gold arrow included Paul Gaffney, John Powell and Ronald Utter. John Pape received a silver arrow.

Band Festival

The annual band festival was held in the Wallkill Central School auditorium Wednesday afternoon, June 3. The climax of the afternoon's activities came with an assembly program presented by the Wallkill Central School Band and a massed band of 75 instrumental students from grades 4, 5, and 6.

The massed Grade School Band was a culmination of earlier performances by the Plattekill Grade School Band under the direction of Miss Elaine Kniffen, the Wallkill Beginners Band and the Wallkill Junior Band directed by William Topping. The program presented by this band and directed by Miss Kniffen and Mr. Topping, was as follows: "Evening Song," a Serenade, "By the River," Reverie, "Summer Skies," Waltz, "On the Lake," Waltz, and "Stepping Along," a march.

This band constituted the largest instrumental group ever assembled on the Wallkill stage. Although the program was unrehearsed, it was aptly performed and presented a fitting climax to the instrumental program in the Wallkill Central School's elementary department.

The assembly was concluded with selections by the Wallkill High School Band under the direction of William Topping, which played: "Our Director" a march by Bigelow, "Hymn to Brotherhood," by Beethoven, "Waves of the Danube" by Ivanocci, "Teddy Bears Picnic" by Bratton, "Schnitzelbank," by Yodez, and "High School Cadets March" by Sousa.

Mrs. George Foster recently attended the wedding of her brother, John Deegan in Jersey City, N. J.

School Play Day

The annual Play Day of the Wallkill Central School District was held June 3 from 9:30 to 11:30 a. m. This yearly event, which in the past included all grades from kindergarten through sixth, was limited this year to fourth through sixth grades.

The emphasis was on team play instead of individual competitions. This was done in order to impress upon the youngsters that all the various schools make up one district.

The Play Day was under the direction of Physical Education Department of the Central School. Vincent DeAngelis and Charles Neff supervised the activities of the fifth and sixth grades held in Wallkill and Mrs. H. Birdsall supervised the activities of the fourth grades which were held in Plattekill. These staff members were assisted by numerous high school students who served as umpires.

Scholarship Awarded

According to word received recently from the secretary of the New York State Federation of Home Bureaus, Miss Janette Stein of Phoenicia has been awarded the Home Bureau Scholarship at Oneonta for the next term. Miss Stein will be a senior this fall. The award was announced at the Home Economics Club Banquet last week.

UC Fair Premium Lists

Mrs. William Powers, superintendent of the Home Department of the Ulster County Fair, announced today that the premium lists for the fair are available at the Home Bureau office, 280 Wall street, Kingston.

Now is the time to get the list and start planning what you would like to exhibit. The fair will be held on August 19 and 20 at Forsyth Park in Kingston. Anyone who is a resident of Ulster county may exhibit at the fair.

Mrs. Powers reports a wide variety of entries this year, making it possible for every homemaker to find some entry class she can enter. There are six sections including foods, furniture and furnishings, clothing, handiwork, crafts and hobbies and one for institutionalized people who because of ill health are confined to an institution.

Home Bureau Tour

The Ulster County Home Bureau tour held on Sunday, June 7, at 2 p. m. was a huge success. Over 60 people attended.

The tour started in front of the Carlton Beach residence in High Falls on the Lucas avenue turnpike, where a 150-year-old stone house was viewed by those attending. Mrs. Beach's house is filled with beautiful furnishings that she has done herself. In the future they hope to remodel their kitchen and also the second floor. Contemplated plans for this were seen.

The second stop was at the home of Mr. and Mrs. DeWitt Hasbrouck, also in High Falls, to see the house which they are building themselves and which has ample closet space and well proportioned and easily accessible rooms.

The home of Mr. and Mrs. Carlton VandeWater on Schrieber's Lane in New Paltz was the next stop where over 100 varieties of iris were in bloom in their beautiful garden.

From VandeWaters,' the next tour stop was made at the home of Mr. and Mrs. Frank Coy in Modena, where most of the construction changes were done by Mr. Coy over a period of years. Their kitchen is well planned to meet the needs of the family. The home grounds show the results of good planning that unify the home and grounds.

The last stop was made at the home of Mr. and Mrs. Fred Woolsey on the Latintown Road in Milton where the kitchen is in process of being remodelled. Many interesting features, such as a business center and laundry center were included in their plans which were developed by Miss Ruby Loper, rural architect.

The supper stop was made at Hasbrouck Memorial hall in Modena where refreshments were provided for those desiring them by the young people's society of the Modena Methodist Church.

After supper there was a brief program. Mrs. William Cranston of Kingston sponsor of housing for the Ulster County Home Bureau, outlined what is contemplated in providing help during the coming months in the way of building and remodelling.

Miss Ruby Loper, housing specialist and rural architect, discussed briefly the various stops made on the tour and explained the content of our contemplated program.

There was a display of carpentered articles, space saving devices, that can be made easily at home to make kitchens more convenient. A collection of bulletins on housing which are available upon request were displayed.

Bid Varies With Opponents' Cards

By OSWALD JACOBY
Written for NEA Service

How should you conduct the bidding when you have excellent distribution but when the opponents have most of the high cards? As a general rule this is the time to make a shutout bid. Sometimes, however, it is more effective to bid gradually and reluctantly.

In today's hand South very quickly found out that the opponents had most of the high cards. When North could not make a free bid over West's diamond overcall, it was clear that North had a weak hand. Since South, likewise, had a weak hand, it was evident that most of the high cards were in the East and West hands.

The first ray of hope for South came when North raised spades. South immediately decided that he would play the hand at spades no matter how high he had to bid.

If South had jumped from two spades to four spades, it is quite possible that West would have taken the push and gone to five hearts. South didn't want to push the opponents into five or six hearts, because he would feel compelled to outbid them in spades.

Opening lead—♦ K

The simple fact was that South knew he could not be badly hurt at a spade contract and that he knew no sound way of estimating what the opponents could make at hearts.

It was quite safe for South to pass at two spades even though he wanted to get to four spades. Somebody had to have all the high cards, and it was clear that West would be able to make another bid.

When West unsuspectingly took the push, South once more exercised restraint. He was quite sure that one of the opponents would bid four hearts if given the opportunity. When West did so, South could bid four spades with every appearance of having been pushed to a height beyond his strength.

South's careful tactics were rewarded when he was doubled at an unbeatable contract. A heart opening lead would have held declarer to four spades, but the actual diamond lead allowed him to make an extra trick.

Dummy won the first trick with the ace of diamonds, and South discarded his only heart. South gave up a club trick, ruffed the return, and gave up another club. He could then ruff the return again, draw trumps, and run his clubs for the rest of the tricks.

Since South, likewise, had a weak hand, it was evident that most of the high cards were in the East and West hands.

The first ray of hope for South came when North raised spades. South immediately decided that he would play the hand at spades no matter how high he had to bid.

If South had jumped from two spades to four spades, it is quite possible that West would have taken the push and gone to five hearts. South didn't want to push the opponents into five or six hearts, because he would feel compelled to outbid them in spades.

Opening lead—♦ K

The simple fact was that South knew he could not be badly hurt at a spade contract and that he knew no sound way of estimating what the opponents could make at hearts.

It was quite safe for South to pass at two spades even though he wanted to get to four spades. Somebody had to have all the high cards, and it was clear that West would be able to make another bid.

When West unsuspectingly took the push, South once more exercised restraint. He was quite sure that one of the opponents would bid four hearts if given the opportunity. When West did so, South could bid four spades with every appearance of having been pushed to a height beyond his strength.

South's careful tactics were rewarded when he was doubled at an unbeatable contract. A heart opening lead would have held declarer to four spades, but the actual diamond lead allowed him to make an extra trick.

Dummy won the first trick with the ace of diamonds, and South discarded his only heart. South gave up a club trick, ruffed the return, and gave up another club. He could then ruff the return again, draw trumps, and run his clubs for the rest of the tricks.

MAN-SIZE BREAKFAST for Father's Day calls for bacon and eggs, strawberry swirls, extra preserves and plenty of coffee.

By GAYNOR MADDOX
NEA Food and Markets Editor

On his own special day, start Dad off with a wonderful, man-size breakfast, Mrs. D. G. Harrison of Joplin, Mo., a man-pleasing cook, gives us some of her sure-fire breakfast tricks. Hot breads—that's her answer.

"The smell of hot breads combined with the glorious smell of eggs and bacon cooking will turn a roaring lion of a husband into a very lovable lamb," says this wise cook.

Mrs. Harrison keeps a supply of quick mixes on hand and buys a good assortment of jellies, preserves and jams. Then she is ready.

"Strawberry swirls are no chore," she says. "Mixing and rolling takes a matter of seconds. Pop them in the oven to bake along with the eggs. Bake a few plain biscuits at the same time in case he prefers his strawberry preserves as a topping."

Strawberry Swirls
(About 14 swirls)

Two cups biscuit mix, 2/3 cup milk, 2 tablespoons melted butter, 2/3 cup strawberry preserves.

Combine biscuit mix and milk; mix thoroughly with a fork. Knead 10 times on lightly floured surface and roll dough into a rectangular shape, about ⅛ inch in thickness. Brush with melted butter. Spread with strawberry preserves. Roll lengthwise as tightly as possible, jelly-roll fashion. Cut into ¾-inch slices. Place in greased muffin pans.

Favorite Blueberry Griddle Cakes
(Makes 12 to 15 griddle cakes)

Two and one-half cups sifted all-purpose flour, 1 teaspoon salt, 2 teaspoons brown sugar, 3 eggs, well beaten, 2 cups buttermilk or sour milk, 1 teaspoon baking soda, 3 tablespoons melted shortening, 2 teaspoons baking powder, 1 cup fresh blueberries or frozen blueberries, thawed and drained, butter or margarine, peach or apricot preserves.

Sift flour, salt and sugar together. In a bowl, combine eggs, buttermilk or sour milk and baking soda; mix thoroughly. Stir in sifted dry ingredients and mix until smooth. Blend in shortening; beat well. Cover and store in refrigerator overnight.

When ready to bake the griddle cakes, blend baking powder into the batter and fold in blueberries. Bake on hot griddle. When bubbles appear on the surface of the griddle cakes, turn and brown other side. Serve immediately with butter or margarine and peach or apricot preserves.

TOMORROW'S MENU

BREAKFAST: Orange juice, fried eggs and bacon strawberry swirls, butter or margarine, coffee, milk.

LUNCHEON: Tuna, celery and cucumber salad, lettuce and tomatoes, mayonnaise, toasted English muffins, butter or margarine, fruit bowl (cherries and bananas), cookies, tea, milk.

FATHER'S DAY DINNER: Grapefruit de luxe, fried chicken, cream gravy, sweet potato pudding, buttered green beans, corn sticks, butter or margarine, molded tomatoes and cucumber and horseradish salad, hot blackberry roll with whipped vanilla ice cream sauce, coffee, milk.

To Remain Free on Bail

Washington, June 11 (AP)—Serge Rubinstein, wealthy Russian-born financier and convicted draft dodger, today won a court order allowing him to remain free on bail while he fights an order for his deportation. The U. S. Court of Appeals in a 2-1 decision, ruled against the Justice Department which wants to arrest Rubinstein and take him to Ellis Island. The court returned the case to the U. S. District Court here with directions to issue a preliminary injunction against revoking Rubinstein's bail and from taking him into custody on a warrant of arrest for deportation.

WORLD'S LONGEST PICNIC TABLE—Some 100,000 persons from every state in the union will sit at this mile-long picnic table and have what is probably the world's biggest picnic on June 27. It is the All-States Picnic held annually at Ontario, Calif. It is sponsored by the city of Ontario and the All-States Federation. Highlight of the day will be a parade in which Western riders, floats, military units and organizations will take part.

French Government Crisis in Fourth Week

Paris, June 11 (AP)—The French Government crisis entered its fourth week today and President Vincent Auriol looked again for a premier following the National Assembly's rejection of a third candidate, Georges Bidault.

In the Assembly balloting earlier today, the 627-member Lower House failed by one vote to give Bidault the 314-vote absolute majority he required for confirmation. The count was 313-228.

As Auriol began talks with the heads of France's many parties, one name mentioned unofficially as a possible contender was Louis Jacquinot, an independent. He was minister of overseas territories in the Rene Mayer cabinet, whose defeat May 21 started the crisis.

Though Bidault almost got the nod, the assembly deputies apparently were not enough impressed by the dark picture of the nation's finances painted by the MRP leader and the other two rejected candidates — Paul Reynaud and Pierre Mendes-France. Each stressed that France is sliding further into the red each day, both on the internal budget and in its foreign exchange position.

Water is about 800 times as dense as air.

Mayor Urges That Flag Be Displayed

Mayor Oscar V. Newkirk today issued a proclamation for the observance of June 14 as the 176th birthday of the American Flag, calling it the anniversary when "we the people, receive a birthday gift—a gift of freedom."

"Many wars have been fought and men have died to protect our freedom and to keep Old Glory flying," the mayor stressed, and urged that residents of the city remember the birthday by displaying the American flag on Sunday and business men by flying the flag on their establishments on Saturday, the 13th.

Miss Sarah Trotter postcards from London that the Coronation parade wasn't up to the Inauguration parade in Washington. They didn't have a movie cowboy to lasso the Queen.

As Pegler Sees It

the Missouri Historical Society in 1939, which was entered in the Congressional Record by Harry Truman a few days later, which both extols and condemns the gang but distinctly says that in the Northfield raid, "the professional dead-shots were routed. Amateurs won the day."

The reaction of the press to the scheme by which Governor Crittenden tempted Bob and Charley Ford, members of the gang, to shoot Jesse in the back of the head for a $10,000 reward, was mixed. The Kansas City Times attacked the St. Joe Herald and the St. Louis Post-Dispatch on the ground that they mourned "the loss of Jesse James as they have never mourned the loss of any of Missouri's great men."

The Post-Dispatch replied: "It is a solemn duty to inform you (Times) that you utter a malicious and vicious and utterly indefensible lie when you say this paper has mourned the loss of Jesse James."

But the Post-Dispatch had "never ceased to believe that Crittenden inflicted more disgrace on the state by the manner in which he brought about the murder of James than the bandit could if he had been left to continue his career. His death was a blessing but the manner of his taking off was a reproach to our civilization."

The P-D said the New York Sun, World, Telegraph, Graphic and Tribune and the Chicago Inter-Ocean and News supported its position.

The Post-Dispatch renews its interesting faith in its current reliable detestation of all persons who expose Communists in the government and entertainment, objecting not to the end, of course, but to practically all means of achieving that result. There is this difference, used by Crittenden which it found repungnant to its exacting ethics. In the cases of Joe McCarthy, Bill Jenner, Pat McCarran and the House Committee under Congressman Velde, specifications are lacking.

GOOD TASTE TODAY

By EMILY POST

(Author of Etiquette, 'Children Are People,' etc.)

COMPLIMENTING YOUNG CHILDREN

That personal remarks are not in best taste is made evident in the following letter; "Very often people will remark when they see my three-year-old son, 'My, what a pretty child,' and then add, 'but who does he look like?' I have two older children and think this remark is very uncomplimentary to the rest of my family. I resent it very much and would like to know if there is some reply that I can make to such a remark."

It is more than possible that you are oversensitive. To me it seems likely that little children always receive more compliments than their older brothers and sisters. I would suggest that you answer such remarks by saying, "Thank you. I, of course, think he is beautiful, and we all think he looks like old pictures of father (or whoever)!

Addressing Senator and Governor

Dear Mrs. Post: Will you please tell me how to address a United States senator when writing to him? (2) I also would like to know how to address the envelope to a governor.

Answer: (1) Socially, a senator is addressed Senator John Jones (his home address). Officially, he is addressed The Hon. John Jones, Senator from . . . The formal beginning is Sir or Dear Sir. Informal beginning is Dear Senator Jones. (2) A governor in his own state is addressed, His Excellency The Governor, followed by his state's capitol. Out of his state he is addressed The Honorable Henry Brown, Governor of whatever his state.

The Bride's Dress

Dear Mrs. Post: My wedding dress is white satin over lace. That is, the undergarment is a white lace strapless dress with a long white satin redingote covering it. It was made this way purposely so that the under dress could be worn separately as an evening dress. I would like to know if it would be proper to remove the redingote at the reception?

Answer: Please don't. To see a bride in a real evening dress would be shocking.

• • •

Is classical or popular music played for the wedding reception? Mrs. Post is sorry she cannot answer personal mail. Her leaflet E-2 includes this and other details on formal wedding procedure. To obtain a copy, send 10 cents in coin to her, c/o The Kingston Daily Freeman, P. O. Box 99, Station G, New York 19, N. Y.

DeGasperi Will Make No Cabinet Changes

Rome, Italy, June 11 (AP)—President Luigi Einaudi was expected today to wait until the last of the 1¼ million disputed votes in Italy's parliamentary elections are decided before calling on pro-American Premier Alcide De Gasperi to continue his government.

De Gasperi, whose center coalition squeaked through with a 16-vote majority in the Chamber of Deputies and a 13-vote margin in the Senate, probably will make no changes in his cabinet. He is expected to call the nation's new Parliament into its first test session as quickly as possible—perhaps by the end of the month.

The hawk-faced old Christian Democrat leader has pledged fast action on Italy's promised ratification of the European defense pact. But observers as yet were unable to tell whether he could hold enough voting strength in his new legislature to go on with his dollar-backed program that has brought Italy record prosperity and the NATO alliance a staunch partner.

COMPLIMENTING YOUNG CHILDREN

That personal remarks are not in best taste is made evident in the following letter: "Very often people will remark when they see my three-year-old son, 'My, what a pretty child,' and then add, 'but who does he look like?' I have two older children and think this remark is very uncomplimentary to the rest of my family. I resent it very much and would like to know if there is some reply that I can make to such a remark."

It is more than possible that you are oversensitive. To me it seems likely that little children always receive more compliments than their older brothers and sisters. I would suggest that you answer such remarks by saying, "Thank you. I, of course, think he is beautiful, and we all think he looks like old pictures of father (or whoever)!

Addressing Senator and Governor

Dear Mrs. Post: Will you please tell me how to address a United States senator when writing to him? (2) I also would like to know how to address the envelope to a governor.

Answer: (1) Socially, a senator is addressed Senator John Jones (his home address). Officially, he is addressed The Hon. John Jones, Senator from . . . The formal beginning is Sir or Dear Sir. Informal beginning is Dear Senator Jones. (2) A governor in his own state is addressed, His Excellency The Governor, followed by his state's capitol. Out of his state he is addressed The Honorable Henry Brown, Governor of whatever his state.

The Bride's Dress

Dear Mrs. Post: My wedding dress is white satin over lace. That is, the undergarment is a white lace strapless dress with a long white satin redingote covering it. It was made this way purposely so that the under dress could be worn separately as an evening dress. I would like to know if it would be proper to remove the redingote at the reception?

Answer: Please don't. To see a bride in a real evening dress would be shocking.

• • •

Is classical or popular music played for the wedding reception? Mrs. Post is sorry she cannot answer personal mail. Her leaflet E-2 includes this and other details on formal wedding procedure. To obtain a copy, send 10 cents in coin to her, c/o The Kingston Daily Freeman, P. O. Box 99, Station G, New York 19, N. Y.

DeGasperi Will Make No Cabinet Changes

Rome, Italy, June 11 (AP)—President Luigi Einaudi was expected today to wait until the last of the 1¼ million disputed votes in Italy's parliamentary elections are decided before calling on pro-American Premier Alcide De Gasperi to continue his government.

De Gasperi, whose center coalition squeaked through with a 16-vote majority in the Chamber of Deputies and a 13-vote margin in the Senate, probably will make no changes in his cabinet. He is expected to call the nation's new Parliament into its first test session as quickly as possible—perhaps by the end of the month.

The hawk-faced old Christian Democrat leader has pledged fast action on Italy's promised ratification of the European defense pact. But observers as yet were unable to tell whether he could hold enough voting strength in his new legislature to go on with his dollar-backed program that has brought Italy record prosperity and the NATO alliance a staunch partner.

Miss Joan S. Cain Becomes Minister's Bride on June 10

Miss Joan Scott Cain, daughter of the Rev. Dr. and Mrs. William Carner Cain, Manse of Rondout Presbyterian Church, 85 Wurts street, became the bride of the Rev. Richard Arnold Underwood, son of the Rev. Dr. and Mrs. Arnold C. Underwood, Greenfield, Ind., at five o'clock Wednesday afternoon, in the Rondout Presbyterian Church. The bride's father officiated at the double ring ceremony. A reception for 200 guests was held in the Manse of the church.

The church was decorated with white gladioli, peonies, spirea and palms. Dr. C. Franklin Pierce presided at the organ. John Alexander McCullough as soloist, sang Beloved It is Morn, by Aylward; Sanctuary by LaForge, and The Lord's Prayer by Malotte.

Escorted by her godfather, George Beckwith Keeler of New York and Millington, N. J., the bride wore an ankle length ivory taffeta gown fashioned with a fitted bodice and white nylon tulle bouffant overskirt, decorated with loops of seed pearls; and a white nylon tulle jacket embroidered with a seed pearl motif. Her fingertip-length white tulle veil fell from a heart-shaped coronet. She carried a cascade of white orchids and white Garnet roses.

Miss Nancy Joan Wennemer of Califon, N. J., was the maid-of-honor. She was attired in a salmon-colored taffeta, princess styled gown, and a shrug-shoulder jacket of blue taffeta. She carried an old-fashioned bouquet of red roses.

The bridesmaids were Miss Barbara Jean Boden of Chester, N. J., and Miss Alice Lillian Clayton of West Orange, N. J. They wore princess styled gowns of changeable blue taffeta and shrug-shoulder jackets of salmon taffeta, and carried cascade bouquets of talisman roses.

Miss Mary Ann McCullough, the flower girl, wore a floor-length frock of light blue organdy. Her hair was arranged in Alice-in-Wonderland braids with blue ribbons. She carried a small old-fashioned cascade bouquet of pink daisies.

The Rev. Kerm Morrison of New Haven, Conn., was best man. Serving as ushers were the Rev. Charles Ellinwood, Madison, N. J., the Rev. Claude Frieson, Bakersfield, Calif., Peter C. Cain, a brother to the bride; and Norman A. Underwood, the bridegroom's brother, of Peru, Ind. John Alexander McCullough, Jr., was the ringbearer.

Finch Declares Business Official

Hudson, June 11 (AP)—Arthur Finch, former Hudson patrolman accused of perjury, maintains he was on official business—investigating a noise—at a house of prostitution when state police raided it in 1950.

Finch, 56, testified in his own behalf as the defense opened its case in State Supreme Court yesterday. The trial, which stems from the extraordinary grand jury investigation of vice and corruption in Columbia county, continued today. It began Tuesday.

The prosecution rested yesterday after four state troopers had testified they saw Finch in the brothel during the raid, and Hudson's Police Chief John J. Sullivan had said the police blotter showed no official business had called Finch there.

Justice Henry L. Ughetta, presiding at the special court term, denied a defense motion to dismiss the two perjury charges against Finch.

Perjury Is Charged

He is accused of falsely telling the grand jury he never had been in a house of prostitution here on other than official business, and of falsely telling the Hudson Police Commission he was not in a brothel when troopers raided it on June 23, 1950.

Testifying for the defense, Police Sgt. William Egan said he and Finch were investigating a noise at the disorderly house.

Finch then took the stand and declared that he and Egan were there on official business—investigating the noise. Egan was cleared several months ago after trial on a perjury charge in the same connection.

These aren't just ordinary steaks! They're specially selected from corn-fed heavy steer beef of famous "Super-Right" quality . . . cut and priced to give you outstanding value.

Famous "Super-Right" Quality Close-Trim

Porterhouse LB 85¢

Before weighing a close-trimmed "Super-Right" porterhouse steak, A&P removes the excess fat and coarse flank tail meat. You pay only for the tender, juicy "heart of the steak." The flank tail meat is sold separately as hamburg and at a lower price per pound.

If you prefer, you can also buy your porterhouse steak with a standard regular-trim. Flank tail and excess fat are not removed before weighing. However, it's the same fine "Super-Right" quality meat.

REGULAR TRIM LB 69¢

Famous "Super-Right" Quality Close-Trim

Sirloin LB 85¢

Before weighing a close-trimmed "Super-Right" sirloin steak, A&P removes the excess bone, fat and less desirable flank meat. You pay for and get only the choicest part of the steak. The less desirable flank meat is sold separately as hamburg at a lower price per pound.

Of course, if you prefer to buy your sirloin steak with a standard regular-trim, A&P sells it that way as well. The price per pound is lower because the excess bone and fat and less desirable flank meat are not removed before weighing. However, you get the same fine "Super-Right" quality meat.

Film About Weizmann

Tel Aviv (AP)—Film authors Emmerich Pressburger and Michael Powell of (British) "Red Shoes" and "Tales of Hoffman" fame have arrived here for a two weeks stay to get a close view of the background of their planned film on the life of the late Israel State President and scholar Prof. Chaim Weizmann. Pressburger said the film—the cast of which is not yet selected—would largely be based on Weizmann's autobiography "Trial and Error" which appeared about three years ago.

Plattekill

Plattekill, June 9—Devastating work by the engineers and crew of the New York-Buffalo thruway project commenced in this section of the country on Monday, when landmarks and properties occupied by residents for nearly 40 years or more were bulldozed. The project will change the general site of the community as Route 32 will also be aligned at the four corners, and an overhead bridge in the heart of the place. New homes and boarding places are apparently springing up on every road throughout the town, the school will be enlarged, and places of business being erected and enlarged. Progress is making its stamp on Plattekill, so named for a congressman and the inconspicuous 'kill that runs through the town.

Mrs. Bernard Kopaski attended a meeting of the Public Health Nursing Committee of the Town of Plattekill Tuesday evening at Modena.

Funeral services were held on Wednesday of the past week for Anthony Venuti, 45, at the Coloni Funeral Home, Newburgh, with burial in Calvary Cemetery. Mr. Venuti, who was proprietor of the Alta Vista Villa, near Ardonia and Modena, died suddenly from a heart attack on Saturday, May 30. He was well known in this and nearby sections as a skilled musician.

Mr. and Mrs. Edmund F. Wager, Jr., and Johnny Potts attended the annual archery tournament at Oneonta on Sunday.

Members of the Willing Workers Society of Plattekill Methodist Church have been busy as well as carpenters and workmen, in preparing the Methodist parsonage for the occupancy of the new minister, the Rev. Robert Hollis, and his bride.

Film About Weizmann

Tel Aviv (AP)—Film authors Emmerich Pressburger and Michael Powell of (British) "Red Shoes" and "Tales of Hoffman" fame have arrived here for a two weeks stay to get a close view of the background of their planned film on the life of the late Israel State President and scholar Prof. Chaim Weizmann. Pressburger said the film—the cast of which is not yet selected—would largely be based on Weizmann's autobiography "Trial and Error" which appeared about three years ago.

Plattekill

Plattekill, June 9—Devastating work by the engineers and crew of the New York-Buffalo thruway project commenced in this section of the country on Monday, when landmarks and properties occupied by residents for nearly 40 years or more were bulldozed. The project will change the general site of the community as Route 32 will also be aligned at the four corners, and an overhead bridge in the heart of the place. New homes and boarding places are apparently springing up on every road throughout the town, the school will be enlarged, and places of business being erected and enlarged. Progress is making its stamp on Plattekill, so named for a congressman and the inconspicuous 'kill that runs through the town.

Mrs. Bernard Kopaski attended a meeting of the Public Health Nursing Committee of the Town of Plattekill Tuesday evening at Modena.

Funeral services were held on Wednesday of the past week for Anthony Venuti, 45, at the Coloni Funeral Home, Newburgh, with burial in Calvary Cemetery. Mr. Venuti, who was proprietor of the Alta Vista Villa, near Ardonia and Modena, died suddenly from a heart attack on Saturday, May 30. He was well known in this and nearby sections as a skilled musician.

Mr. and Mrs. Edmund F. Wager, Edmund F. Wager, Jr., and Johnny Potts attended the annual archery tournament at Oneonta on Sunday.

Members of the Willing Workers Society of Plattekill Methodist Church have been busy as well as carpenters and workmen, in preparing the Methodist parsonage for the occupancy of the new minister, the Rev. Robert Hollis, and his bride.

Have Olive Bridge Wedding

During a wedding reception, Mr. and Mrs. Alvin LeRoy Avery, cut a cake at the IOOF hall in Olive Bridge, following their marriage Sunday afternoon, June 7. *(Brentwood photo)*

Helen Louise Palen, Alvin L. Avery Wed In Methodist Church

Miss Helen Louise Palen, daughter of Mr. and Mrs. Nelson Boice of Olive Bridge, was married to Alvin LeRoy Avery, son of Mr. and Mrs. Grant Avery of Shokan, on Sunday afternoon, June 7, in the Olive Bridge Methodist Church. The Rev. George Cox, pastor, officiated at the double ring ceremony. A reception for 100 guests was held at the IOOF Hall, Olive Bridge.

Baskets of sweet peas and gladioli, palms and ferns decorated the church. The pews were marked with satin bows and peonies. Albert Fox, Jr., as organist, played traditional wedding music.

Given in marriage by her stepfather, Nelson Boice, the bride wore a floor length gown of white Florentine lace over satin, styled with a fitted bodice, petal collar and long pointed sleeves, and a full skirt with a scalloped hemline. Her fingretip veil of imported French silk illusion was caught to a lace crown trimmed with seed pearls and sequins. She carried a crescent bouquet of gardenias and sweet peas, with a white orchid and stephanotis.

Wiltwycks Trip Jones 6-2, for Fourth in Row

Fisher Is Winner Errors Hurt Hinkley

Although out-hit by 7 to 6, the Wiltwyck Motors still had the right formula to register their fourth straight City League victory Wednesday night to boost them into first place a half game ahead of the undefeated Colonial Merchants.

Leading throughout the contest, the Motormen punched out a 6 to 2 decision over Jones Dairy, the Dairymen's third setback in five starts.

Tonight's tilt at the Athletic Field will bring together the Colonial Merchants and Doblers. A Merchant triumph will send the first place battle into a two-way tie for the second time this week.

Veteran Tommy Fisher was called upon to protect Wiltwyck's winning streak last night and he responded to the occasion in fine fettle. The veteran City League righthander had excellent control once more and walked only one batter while striking out five.

Errors Hurt Hinkley

Bruce Hinkley, the Jones hurler, deserved better fate as his teammates came up with five costly errors resulting in four unearned runs. Hinkley issued four walks and fanned two.

Wiltwyck scored two in the first and added another in the second to lead by 3-0. Another run in the fourth made it 4-0 before the Dairymen found the range. The losers countered with a pair of markers in the bottom half of the fourth to make it a 4-2 ball game.

The Motormen bounced back with single tallies in the fifth and seventh stanzas to win going away.

Tom Murphy of Wiltwycks and Tommy Carlino for Jones each exploded triples. Carlino's three-ply smash in the fourth was really belted and helped the Dairymen to push over their two runs.

Nippy Jones, third sacker for Jones Dairy, emerged as the batting star of the night with two hits in three trips.

Stanky Is Cited For Saving Pair From Suspension

Pittsburgh, June 11 (AP) — St. Louis Cardinal Manager Eddie Stanky's "peace maker" role at Brooklyn last Saturday saved two of his players from a suspension by National League President Warren Giles.

Both shortstop Solly Hemus and catcher Del Rice were fined $50 for their protest to Umpire Bill Englen over a ball and strike call. The Cardinals were defeated by the Dodgers, 5-4, when Gil Hodges hit a three-run homer in the ninth inning after the call which the players contended should have been a third strike.

In telegrams to the Cardinals here, Giles said the players would have been suspended if Stanky hadn't tried to control them. Stanky shoved Rice away from the umpire and then rushed over to stop Hemus' action after the game was over.

However, Stanky was fined $50 by Giles for his action in a game at Philadelphia last Wednesday. Stanky was ejected from the game by Umpire Frank Dascoli after arguing over a play on the baselines.

Del Cameron Rated Chance to Shatter Hambletonian Jinx

Goshen—Pint-sized Del Cameron, 33, today is ready to smash the 18-year jinx that's blocked any reinsman from winning the $100,000 Hambletonian stake younger than 34. And he has a choice of five crack colts to pick from, including Newport Star, rated tops for Aug. 12 classic with the current abdication of Lively Lady.

Young Cameron, who is only 5 ft. 4½ in., tall and weighs but 125 pounds, has the best chance of anyone since 1934 to lower the winning driver's age from 34 established by the late "Doc" Parshall in 1934 with Lord Jim. But he realizes what he's up against because Johnny Simpson, 33 last year, had the highest touted colt in Duke of Lullwater and he was beaten by 74-year-old Bi Shively piloting Sharp Note.

Of the 19 Hambletonian entries now training at Good Time Park here, Cameron has Newport Star, second only to Lively Lady last season in victories and money earned, Express, Champ, Mascot and Britt, all with the Newport prefix to their names as owned by Octave Blake, Plainfield, N. J. Young Del who has twice won the Little Brown Jug, pacing counterpart of the Hambletonian, but who's never copped the Goshen trot derby, thinks that out of five "hot" colts and Newport Star living up to its star billing, he should be tought to beat.

Baseball

New York—Leo Durocher, Giant manager, retracted his statement about "umpires ganging up on him" after Warren Giles, National League president told him to substantiate his charges or make a public retraction.

Top Field Seen In Member-Guest Twaalfskill Play

A record field is predicted for the annual Member-Guest Tournament scheduled Saturday at the Twaalfskill Club.

President Floyd Flint said today that he expects the largest turnout of the tournament to compete in the 18-hole handicap play.

All golfers are requested to sign for the tournament at the O'Reilly street clubhouse.

Middleweight Title Is Goal of Gavilan

Detroit, June 11 (AP)—"First me defend my title, then fight middleweight champion for his title."

Those are Kid Gavilan's plans after breezing to an easy 10-round non-title decision over Italo Scortichini at Olympia Stadium last night.

"Maybe me fight Art Aragon for my title in California in July," said the smooth welterweight champion, who had nothing more than a workout against Scortichini.

"But if not Aragon, maybe me fight Johnny Saxton or Gil Turner or Chuck Davey . . . all three make good fight."

Saxton and Turner are scheduled to meet in Philadelphia Monday night in what amounts to a welterweight elimination match. It's possible Davey may meet the Saxton-Turner winner, with the winner of that facing Gavilan.

After watching Gavilan slam Scortichini, it's a wonder why anybody would want to fight the slick Havana hawk — except, of course, for that precious folding green.

Flashing his bolo at will, Gavilan trimmed his young Italian opponent from start to finish.

Referee Clarence Rosen had the champion on top, 58-42, while Judge Al Goodman had it 60-40 and Judge Jack Aspery, 53-47.

Gavilan weighed 151¾, Scortichini, 155.

Wins Going Away

Westbury, June 11 (AP)—Mighty Grattan stormed down the center of the track to collar Sep Hanover and take a one length victory last night in the Valley Stream Pace at Roosevelt Raceway. Robert Walker kept Mighty Grattan on the rail as Sep Hanover set a fast pace, then took him to the outside to win going away. Nat Hanover was third. Mighty Grattan, owned by Harry Roughsedge, of Wilkes Barre, Pa., paced the mile in 2:05.1 and returned $11.30 for $2.

Relief pitcher Temple, who bailed Big Ed Cherny out of trouble, was credited with the victory. The winners collected 16 hits off R. Lasher, including a "4 for 4" spree by Ritter, who stroked a double and triple.

Warns on Racing Taxes

Boston, June 11 (AP)—James H. Inglis of Michigan has warned his fellow members of the National Association of State Racing Commissioners that horse players soon "are going to revolt and stay home" if taxes keep cutting so heavily into the mutuel pool. Inglis, chairman of the association's committee on state revenues, told the 19th annual convention yesterday: "Increases in the rate of taxation on parimutuel wagering are continuing in spite of warnings from this and other turf bodies that the patience of the long-suffering horse players to an excessive takeout is wearing thin."

W. C. Miller Elected President Belleayre Mountain Ski Club

W. C. Miller of Middletown was elected president of the Belleayre Mountain Ski Club, succeeding John Lurie of Woodland Valley, at the annual business meeting Sunday atop Belleayre Mountain.

Despite a steady drizzle, club members attended from such widely scattered points as Kingston, Woodstock, Newburgh, Middletown, Stone Ridge, New York city, Connecticut, Massachusetts and New Jersey. It was conservatively estimated that the combined mileage travelled by the members exceeded 5,000 miles.

Gordan Kent of Highmount was elected vice-president and George Kelley of Woodstock is the new second vice-president. Other officers named were: Mrs. Gordon Kent, Highmount, treasurer; Mrs. Arthur G. Draper, Pine Hill, secretary.

Directors elected were John Lurie, Charles Nebel of Danville, N. J.; Joseph Feitzinger and Ralph Yerry of Shandaken; John McGrath of Phoenicia, and John Fuller of Big Indian.

Plan Next Season

Club plans for next winter include a program of amateur ski instruction for the junior members under 18 years of age. This instruction will be free and given only on Saturday mornings. It is entirely separate from the professional ski school at Belleayre and Highmount.

Reporting on the ski races sponsored by the club last winter, Mrs. Nebel said they were a credit to the area in the way they were organized and conducted and for the amount of excellent talent attracted.

William H. Nesbit of Lanesboro, Mass., a visitor from Mt. Greylock Ski Club and former director of the U. S. Eastern Ski Association, had high praise for the work of the local club.

The fall picnic sponsored by the ski club will be held on Sept. 20, to formulate definite plans for the 1953-54 winter season.

Wiltwycks Trip Jones 6-2, for Fourth in Row

Fisher Is Winner Errors Hurt Hinkley

Although out-hit by 7 to 6, the Wiltwyck Motors still had the right formula to register their fourth straight City League victory Wednesday night to boost them into first place a half game ahead of the undefeated Colonial Merchants.

Leading throughout the contest, the Motormen punched out a 6 to 2 decision over Jones Dairy, the Dairymen's third setback in five starts.

Tonight's tilt at the Athletic Field will bring together the Colonial Merchants and Doblers. A Merchant triumph will send the first place battle into a two-way tie for the second time this week.

Veteran Tommy Fisher was called upon to protect Wiltwyck's winning streak last night and he responded to the occasion in fine fettle. The veteran City League righthander had excellent control once more and walked only one batter while striking out five.

Errors Hurt Hinkley

Bruce Hinkley, the Jones hurler, deserved better fate as his teammates came up with five costly errors resulting in four unearned runs. Hinkley issued four walks and fanned two.

Wiltwyck scored two in the first and added another in the second to lead by 3-0. Another run in the fourth made it 4-0 before the Dairymen found the range. The losers countered with a pair of markers in the bottom half of the fourth to make it a 4-2 ball game.

The Motormen bounced back with single tallies in the fifth and seventh stanzas to win going away.

Tom Murphy of Wiltwycks and Tommy Carlino for Jones each exploded triples. Carlino's three-ply smash in the fourth was really belted and helped the Dairymen to push over their two runs.

Nippy Jones, third sacker for Jones Dairy, emerged as the batting star of the night with two hits in three trips.

Stanky Is Cited For Saving Pair From Suspension

Pittsburgh, June 11 (AP) — St. Louis Cardinal Manager Eddie Stanky's "peace maker" role at Brooklyn last Saturday saved two of his players from a suspension by National League President Warren Giles.

Both shortstop Solly Hemus and catcher Del Rice were fined $50 for their protest to Umpire Bill Englen over a ball and strike call. The Cardinals were defeated by the Dodgers, 5-4, when Gil Hodges hit a three-run homer in the ninth inning after the call which the players contended should have been a third strike.

In telegrams to the Cardinals here, Giles said the players would have been suspended if Stanky hadn't tried to control them. Stanky shoved Rice away from the umpire and then rushed over to stop Hemus' action after the game was over.

However, Stanky was fined $50 by Giles for his action in a game at Philadelphia last Wednesday. Stanky was ejected from the game by Umpire Frank Dascoli after arguing over a play on the baselines.

Del Cameron Rated Chance to Shatter Hambletonian Jinx

Goshen—Pint-sized Del Cameron, 33, today is ready to smash the 18-year jinx that's blocked any reinsman from winning the $100,000 Hambletonian stake younger than 34. And he has a choice of five crack colts to pick from, including Newport Star, rated tops for Aug. 12 classic with the current abdication of Lively Lady.

Young Cameron, who is only 5 ft. 4½ in., tall and weighs but 125 pounds, has the best chance of anyone since 1934 to lower the winning driver's age from 34 established by the late "Doc" Parshall in 1934 with Lord Jim. But he realizes what he's up against because Johnny Simpson, 33 last year, had the highest touted colt in Duke of Lullwater and he was beaten by 74-year-old Bi Shively piloting Sharp Note.

Of the 19 Hambletonian entries now training at Good Time Park here, Cameron has Newport Star, second only to Lively Lady last season in victories and money earned, Express, Champ, Mascot and Britt, all with the Newport prefix to their names as owned by Octave Blake, Plainfield, N. J. Young Del who has twice won the Little Brown Jug, pacing counterpart of the Hambletonian, but who's never copped the Goshen trot derby, thinks that out of five "hot" colts and Newport Star living up to its star billing, he should be tought to beat.

Top Field Seen In Member-Guest Twaalfskill Play

A record field is predicted for the annual Member-Guest Tournament scheduled Saturday at the Twaalfskill Club.

President Floyd Flint said today that he expects the largest turnout of the tournament to compete in the 18-hole handicap play.

All golfers are requested to sign for the tournament at the O'Reilly street clubhouse.

Middleweight Title Is Goal of Gavilan

Detroit, June 11 (AP)—"First me defend my title, then fight middleweight champion for his title."

Those are Kid Gavilan's plans after breezing to an easy 10-round non-title decision over Italo Scortichini at Olympia Stadium last night.

"Maybe me fight Art Aragon for my title in California in July," said the smooth welterweight champion, who had nothing more than a workout against Scortichini.

"But if not Aragon, maybe me fight Johnny Saxton or Gil Turner or Chuck Davey . . . all three make good fight."

Saxton and Turner are scheduled to meet in Philadelphia Monday night in what amounts to a welterweight elimination match. It's possible Davey may meet the Saxton-Turner winner, with the winner of that facing Gavilan.

After watching Gavilan slam Scortichini, it's a wonder why anybody would want to fight the slick Havana hawk—except, of course, for that precious folding green.

Flashing his bolo at will, Gavilan trimmed his young Italian opponent from start to finish.

Referee Clarence Rosen had the champion on top, 58-42, while Judge Al Goodman had it 60-40 and Judge Jack Aspery, 53-47.

Gavilan weighed 151¾, Scortichini, 155.

Wins Going Away

Westbury, June 11 (AP)—Mighty Grattan stormed down the center of the track to collar Sep Hanover and take a one length victory last night in the Valley Stream Pace at Roosevelt Raceway. Robert Walker kept Mighty Grattan on the rail as Sep Hanover set a fast pace, then took him to the outside to win going away. Nat Hanover was third. Mighty Grattan, owned by Harry Roughsedge, of Wilkes Barre, Pa., paced the mile in 2:05.1 and returned $11.30 for $2.

Previously the Merchants had whipped the Rosendale and Ashdown squads. They meet the All Stars in a return game this evening at 6 o'clock and meet Haber's Stars of Kingston in a doubleheader at 1:30 p. m. Sunday.

Relief pitcher Temple, who bailed Big Ed Cherny out of trouble, was credited with the victory. The winners collected 16 hits off R. Lasher, including a "4 for 4" spree by Ritter, who stroked a double and triple.

St. Joseph's Aims For Herdegen Trophy

The Ulster County division of CYO will sponsor a parish track and field meet at the municipal stadium on Saturday, June 27, at 1:30 p. m.

In case of rain, the meet will be held on Sunday at the same time.

The track meet is staged as a memorial for the late Father Henry E. Herdegen of St. Peter's Church.

Each parish may enter five boys in each event and individuals are permitted to compete in two track events and one field event. A relay is considered to be a track event.

Each entrant must be a bona fide member of the parish which he represents and no student repeating the eighth grade will be eligible. Participants may enter and compete in only one (1) weight class.

The parish CYO moderator or school principal must approve and sign each entry.

Three Classes Planned

Competition will be in three classes: Class A—boys under 80 pounds; B—boys from 80 to 100 pounds; Class C—boys over 100 pounds.

Class A events include the 50-yard dash, 160-yard run, 60-yard low hurdles, 220-yard relay, broad jump, high jump and 8-pound shot put. Class B lists a 75-yard dash, 160-yard dash, 60-yard low hurdle, 440-yard relay, broad jump, high jump and 8-pound shot put.

St. Joseph's parish, winners of the last two meets, can retire the Father Herdegen Memorial trophy by winning this year's meet. The trophy must be won three consecutive years for permanent possession.

Gold and silver medals will be awarded to first and second place finalists in each event in each class. Points will be awarded on the following basis: five points for first place, four for second, three for third, two for fourth and one point for fifth place.

Warns on Racing Taxes

Boston, June 11 (AP)—James H. Inglis of Michigan has warned his fellow members of the National Association of State Racing Commissioners that horse players soon "are going to revolt and stay home" if taxes keep cutting so heavily into the mutuel pool. Inglis, chairman of the association's committee on state revenues, told the 19th annual convention yesterday: "Increases in the rate of taxation on parimutuel wagering are continuing in spite of warnings from this and other turf bodies that the patience of the long-suffering horse players to an excessive takeout is wearing thin."

W. C. Miller Elected President Belleayre Mountain Ski Club

W. C. Miller of Middletown was elected president of the Belleayre Mountain Ski Club, succeeding John Lurie of Woodland Valley, at the annual business meeting Sunday atop Belleayre Mountain.

Despite a steady drizzle, club members attended from such widely scattered points as Kingston, Woodstock, Newburgh, Middletown, Stone Ridge, New York city, Connecticut, Massachusetts and New Jersey. It was conservatively estimated that the combined mileage travelled by the members exceeded 5,000 miles.

Gordan Kent of Highmount was elected vice-president and George Kelley of Woodstock is the new second vice-president. Other officers named were: Mrs. Gordon Kent, Highmount, treasurer; Mrs. Arthur G. Draper, Pine Hill, secretary.

Directors elected were John Lurie, Charles Nebel of Danville, N. J.; Joseph Feitzinger and Ralph Yerry of Shandaken; John McGrath of Phoenicia, and John Fuller of Big Indian.

Plan Next Season

Club plans for next winter include a program of amateur ski instruction for the junior members under 18 years of age. This instruction will be free and given only on Saturday mornings. It is entirely separate from the professional ski school at Belleayre and Highmount.

Reporting on the ski races sponsored by the club last winter, Mrs. Nebel said they were a credit to the area in the way they were organized and conducted and for the amount of excellent talent attracted.

William H. Nesbit of Lanesboro, Mass., a visitor from Mt. Greylock Ski Club and former director of the U. S. Eastern Ski Association, had high praise for the work of the local club.

The fall picnic sponsored by the ski club will be held on Sept. 20, to formulate definite plans for the 1953-54 winter season.

Roberts, Then Question Marks, But Phils Stay High in League

Phil Ace Is First To Win 10 Decisions

(By The Associated Press)

The Philadelphia Phillies have the day off today but their pitchers have been working so often they may show up at the ball park and begin throwing just from force of habit.

At the start of the season Manager Steve O'Neill's biggest problem was finding one more starter to go with his big three. Now he's trying to locate three more starters to go with his big one.

Despite his troubles O'Neill still has a winning ball club. The Phillies have taken eight out of 12 and four straight since their current home stand opened a week ago Tuesday. They won a pair from Chicago last night, 9-1, and 8-5, and moved within four games of the league leading Milwaukee Braves.

In the dozen contests O'Neill has gotten a route-going performance three times— three victories by Robin Roberts, the league's best. Anywhere from two to five pitchers have seen action in each of the other games. Steve Ridzik worked in six of the 12 and Jim Konstanty and Karl Drews in five apiece.

Rotation Fizzles

O'Neill opened the year with a pitching rotation of Roberts, Curt Simmons and then either Drews or Konstanty or both. Now Simmons is out indefinitely with an injured foot and neither Drews nor Konstanty has been able to go without help. Both have been working in relief as often as starters.

Roberts became the first pitcher in either league to win 10 games as he picked up the decision in the first game last night. Konstanty started and won the nightcap, although Ridzik and Drews were in action before it ended.

The Braves kept a game in front of the Brooklyn Dodgers by edging New York, 6-5. The Dodgers hammered 13 hits off Cincinnati pitching to whip the Redlegs, 13-3. St. Louis won for the third time in 10 road games, 5-1 over Pittsburgh.

Yanks Cop 13th

The big winners in the American League kept right on winning. The New York Yankees trimmed Detroit, 11-4, for their 13th straight and Cleveland nipped the Washington Senators, 2-1, for their seventh in a row. The Yanks lead the Indians by 5½ games.

Boston moved into third place with a pair of victories over the St. Louis Browns, 11-2, and 3-2, with Jimmy Piersall equalling a major league record with six straight hits in the opener. Philadelphia edged Chicago, 2-1.

The big blows in Milwaukee's success at the Polo Grounds were home runs by Eddie Mathews and Sid Gordon. Mathews' poke was his 18th of the season and put him out in front in the league's home run race. Gordon's came with two aboard in the eighth and provided the winning runs.

Cards Find Range

Brooklyn broke open a 3-3 tie with three runs in the sixth and frosted the cake with seven more in the eighth. Wayne Belardi's pinch hit triple which broke the tie was the big hit in the sixth.

Manager Eddie Stanky sent his Cardinals through a long day workout and got dividends in the night game with the heavy hitting coming from Enos Slaughter, four for four, and Stan Musial, a double and single in three trips.

Like Old Man River the Yankees just keep rolling along. In the Detroit contest pinch hitters Johnny Mize and Yogi Berra sparked a seven-hit seven-run rally in the sixth inning. Mize's single was his 1,999th major league hit.

Mike Garcia, finally flashing the form he showed last season, set the Senators down on four hits at Cleveland.

Dodgers Crush Giants, 18-6; Second Place at Stake Today

Winners to Engage Yanks in AL Game

The Dodgers set the stage for tonight's battle for second place in the American Little League by scoring an 18 to 6 victory over the Giants Wednesday night.

As a result of last night's win, the Dodgers and Yankees, who collide tonight at the 156th LL Field Artillery diamond, are tied for second place honors with three wins and three losses in six games to date.

Scoring at least once in every inning, the Dodgers jumped off to an early lead with five runs in the first and second innings. They added two in the third, four in the fourth and single tallies in the fifth and sixth.

The Giants collected three in the second and three more in the fifth to close out their scoring activities for the night.

Tom Mayone and Allen McCord divided the pitching chores for the Dodgers and held the Giants to eight bingles. Timmy Fisher went the distance for the Giants and was nicked for 13 blows.

Barnes Leads Dodgers

Garry Barnes, third sacker for the winners, paced his club at the plate with four hits in four trips and scored as many runs. Jim Volker collected three hits while George Uhl had two. Joe Uhl of the Giants had a perfect night, picking up three bingles in three trips, two of them doubles.

Durocher's Retraction of Umpire Blast Saves Him From Indefinite Suspension

New York, June 12 (AP)—Leo Durocher, who in the space of 18 hours talked himself into and out of a suspension by National League President Warren Giles, has agreed to a truce with his favorite sparring partners, the umpires.

But those who know Leo best wonder: How long will the truce last? Has the fiery leader of the New York Giants decided to accept Giles' veiled warning to button his lip about umpires? Or will Leo again put the blast on the men in blue the minute one of them makes a decision against his team that he considers wrong and unjust?

One thing is certain. Durocher got off lightly following his latest brush with the umpires. It looked mighty black for him for a while yesterday as the result of the bitter charges that National League umpires are ganging up on him.

Durocher saved his skin by retracting statements attributed to him after receiving a telegram from Giles. The National League prexy threatened Leo with indefinite suspension unless he substantiated his charges or made a public retraction of them.

Leo not only said he "didn't mean it," but apologized to Giles by telephone. Giles accepted both the retraction and the apology. Today Giles sent a second telegram which read:

"I consider your statement to me and your public statement to the press which I have read, a complete retraction and in compliance with my request. The suspension which was to become effective today, is no longer in effect."

Giles declined to say what his actions would be should Durocher become involved in other hassels with the umpires. However, he asserted, he will never stand for a manager or a player casting reflections on any of his umpires.

Leo, an old hand at disputing with umpires and the league office, got into his latest jam as the result of a quote, attributed to him in yesterday's New York Post. It read in part:

"Don't tell me they (the umpires) don't get together before the game and decide the first time a certain person says something he is going to be put out of the game. They do the same to Stanky (Manager Eddie Stanky of the St. Louis Cardinals)."

Roberts, Then Question Marks, But Phils Stay High in League

Phil Ace Is First To Win 10 Decisions

(By The Associated Press)

The Philadelphia Phillies have the day off today but their pitchers have been working so often they may show up at the ball park and begin throwing just from force of habit.

At the start of the season Manager Steve O'Neill's biggest problem was finding one more starter to go with his big three. Now he's trying to locate three more starters to go with his big one.

Despite his troubles O'Neill still has a winning ball club. The Phillies have taken eight out of 12 and four straight since their current home stand opened a week ago Tuesday. They won a pair from Chicago last night, 9-1, and 8-5, and moved within four games of the league leading Milwaukee Braves.

In the dozen contests O'Neill has gotten a route-going performance three times— three victories by Robin Roberts, the league's best. Anywhere from two to five pitchers have seen action in each of the other games. Steve Ridzik worked in six of the 12 and Jim Konstanty and Karl Drews in five apiece.

Rotation Fizzles

O'Neill opened the year with a pitching rotation of Roberts, Curt Simmons and then either Drews or Konstanty or both. Now Simmons is out indefinitely with an injured foot and neither Drews nor Konstanty has been able to go without help. Both have been working in relief as often as starters.

Roberts became the first pitcher in either league to win 10 games as he picked up the decision in the first game last night. Konstanty started and won the nightcap, although Ridzik and Drews were in action before it ended.

The Braves kept a game in front of the Brooklyn Dodgers by edging New York, 6-5. The Dodgers hammered 13 hits off Cincinnati pitching to whip the Redlegs, 13-3. St. Louis won for the third time in 10 road games, 5-1 over Pittsburgh.

Yanks Cop 13th

The big winners in the American League kept right on winning. The New York Yankees trimmed Detroit, 11-4, for their 13th straight and Cleveland nipped the Washington Senators, 2-1, for their seventh in a row. The Yanks lead the Indians by 5½ games.

Boston moved into third place with a pair of victories over the St. Louis Browns, 11-2, and 3-2, with Jimmy Piersall equalling a major league record with six straight hits in the opener. Philadelphia edged Chicago, 2-1.

The big blows in Milwaukee's success at the Polo Grounds were home runs by Eddie Mathews and Sid Gordon. Mathews' poke was his 18th of the season and put him out in front in the league's home run race. Gordon's came with two aboard in the eighth and provided the winning runs.

Cards Find Range

Brooklyn broke open a 3-3 tie with three runs in the sixth and frosted the cake with seven more in the eighth. Wayne Belardi's pinch hit triple which broke the tie was the big hit in the sixth.

Manager Eddie Stanky sent his Cardinals through a long day workout and got dividends in the night game with the heavy hitting coming from Enos Slaughter, four for four, and Stan Musial, a double and single in three trips.

Like Old Man River the Yankees just keep rolling along. In the Detroit contest pinch hitters Johnny Mize and Yogi Berra sparked a seven-hit seven-run rally in the sixth inning. Mize's single was his 1,999th major league hit.

Mike Garcia, finally flashing the form he showed last season, set the Senators down on four hits at Cleveland.

Dodgers Crush Giants, 18-6; Second Place at Stake Today

Winners to Engage Yanks in AL Game

The Dodgers set the stage for tonight's battle for second place in the American Little League by scoring an 18 to 6 victory over the Giants Wednesday night.

As a result of last night's win, the Dodgers and Yankees, who collide tonight at the 156th LL Field Artillery diamond, are tied for second place honors with three wins and three losses in six games to date.

Scoring at least once in every inning, the Dodgers jumped off to an early lead with five runs in the first and second innings. They added two in the third, four in the fourth and single tallies in the fifth and sixth.

The Giants collected three in the second and three more in the fifth to close out their scoring activities for the night.

Tom Mayone and Allen McCord divided the pitching chores for the Dodgers and held the Giants to eight bingles. Timmy Fisher went the distance for the Giants and was nicked for 13 blows.

Barnes Leads Dodgers

Garry Barnes, third sacker for the winners, paced his club at the plate with four hits in four trips and scored as many runs. Jim Volker collected three hits while George Uhl had two. Joe Uhl of the Giants had a perfect night, picking up three bingles in three trips, two of them doubles.

Hot Load of Asphalt Pours Over Convertible

Hollywood, June 11 (AP) — Ten tons of scalding asphalt poured over a young mother and her year-old baby yesterday when an out-of-control dump truck overturned, spilling its steaming load into their convertible.

Mrs. Leonora Kunz, 31, was fatally burned. Her son Andrew, with third degree burns over most of his body, is in critical condition.

The two were almost buried when the tarry substance cascaded into their open car. Policemen and bystanders freed them from the crushed machine by dipping the asphalt away with bare hands.

The truck driver, Frank Wilmoth, told police his brakes failed and when he turned abruptly trying to halt the runaway vehicle it turned over on top of Mrs. Kunz's car. Wilmoth suffered only cuts and bruises.

Man Is Charged With Threat to Three Presidents

New York, June 11 (AP)—A man described by the Secret Service as a maniac has been seized for allegedly writing death threats to Presidents Eisenhower, Truman and Roosevelt.

The suspect, who gave his identity as Albert J. Drevney, 40, was arrested yesterday in nearby New Rochelle, N. Y., where he was reporting for work on a new job.

Object of a nationwide hunt, Drevney was described as a "homicidal maniac" by Secret Service Chief U. E. Baughman.

From his office in Washington, Baughman said Drevney mailed a death threat to Eisenhower from Lancaster, Pa., sometime in March.

The Secret Service head said Drevney was arrested in 1941 in San Francisco for writing threatening letters to President Roosevelt. Drevney also threatened the life of President Truman, Baughman said.

Was in Institution

Drevney further was described as having been in half a dozen mental institutions during the past 12 years.

Baughman said he could not immediately shed any light on the circumstances of Drevney's present freedom.

Secret Service men tracked Drevney to Manhattan Tuesday night. An employment agency head here told of sending the man to the United Home for Aged Hebrews in New Rochelle to obtain a job as a waiter.

Arrested by New Rochelle police and federal men, Drevney was booked on charges of conspiracy and violating federal postal laws. He was taken to the federal house of detention here.

Drevney told authorities he originally came from Denver.

Object of a nationwide hunt, Drevney was described as a "homicidal maniac" by Secret Service Chief U. E. Baughman.

From his office in Washington, Baughman said Drevney mailed a death threat to Eisenhower from Lancaster, Pa., sometime in March.

The Secret Service head said Drevney was arrested in 1941 in San Francisco for writing threatening letters to President Roosevelt. Drevney also threatened the life of President Truman, Baughman said.

Was in Institution

Drevney further was described as having been in half a dozen mental institutions during the past 12 years.

Baughman said he could not immediately shed any light on the circumstances of Drevney's present freedom.

Secret Service men tracked Drevney to Manhattan Tuesday night. An employment agency head here told of sending the man to the United Home for Aged Hebrews in New Rochelle to obtain a job as a waiter.

Arrested by New Rochelle police and federal men, Drevney was booked on charges of conspiracy and violating federal postal laws. He was taken to the federal house of detention here.

Drevney told authorities he originally came from Denver.

There are more than 350,000 miles of oil pipeline in operation in the United States.

U. S. Has 152 Wings

Washington, June 11 (AP)—Secretary of Defense Wilson said today that this country now has "152 wings on hand and available for national defense" when navy and marine aircraft and units are evaluated like air force wings. Using this same basis, Wilson said "the total defense program of President Eisenhower calls for the establishment of 176 wings by July 1, 1956."
